VICTORIA, B. C., THURSDAY, OCTOBER 2, 1913

NO. 79

## PANAMA CANAL IS SHAKEN BY VIOLENT EARTHQUAKE

No Damage Was Done to the Works in the Canal Zone in  
Spite of the Great Severity of the  
Shocks

Residents Were Panic-Stricken, However, as No Such Ter-  
rifying Experiences Have Been Felt There  
for Many Years

Panama, Oct. 2.—Absolutely no dam-  
age was done to the structures of the  
Panama canal by the earthquake which  
occurred in the canal zone between 11  
and 12 o'clock last night.

Two shocks of an intensity much  
more severe than any disturbance since  
the Americans took possession of the  
canal zone, took place. They were felt  
from Panama City to Colon.

The first shock was slight and was  
quickly followed by one of longer dura-  
tion, which shook the buildings to their  
foundations. Church bells were set to  
ring, doors were thrown wide open,  
and residents were brought tumbling  
out of their beds.

The first movement lasted about five  
seconds. It occurred about 11:30  
o'clock. The second movement was of  
ten seconds duration.

Colon, Oct. 2.—A severe earthquake  
occurred here at 11:30 last night. The  
disturbance was of nearly a minute's  
duration. Houses were rocked and the  
population aroused. Thousands filled  
the streets and remained there in fear  
of the collapse of their houses. The  
shock was the heaviest within memory.  
A second slighter shock occurred  
at 11:40 o'clock.

The earthquake began with a slow  
movement which gradually became  
more marked. Houses swayed, clocks  
stopped and articles of furniture were  
thrown to the floor. Many of the resi-  
dents became panic-stricken and  
women rushed from their homes with  
children in their arms.

Washington, D. C., Oct. 2.—Major  
Boggs, in charge of the Isthmian canal  
office in this city, this morning cabled  
Col. Goethals at Panama for details of  
the earthquake on the Isthmus last  
night with special reference to possible  
effect on the Panama canal. This ac-

tion was taken as a measure of precau-  
tion, though the officials felt that Col.  
Goethals would have advised them very  
promptly had the canal suffered any  
injury.

It is recalled at the commission of-  
fices that from time to time there have  
been slight shocks of earthquake ex-  
perienced on the Isthmus, but in no  
case has there been any damage what-  
ever to the engineering work, although  
a sensational report of one of these  
quakes about two years ago caused  
considerable alarm at the time. It is  
said at the commission offices that very  
little danger of extensive damage to the  
canal could have been caused by any  
earthquake on record, not only on the  
Isthmus, but in this hemisphere.

Recorded vibrations of what evi-  
dently was the earthquake which visited  
the zone were shown on the seismo-  
graph at the Georgetown University  
observatory here. The vibrations lasted  
from about 11:35 o'clock until about  
ten minutes after midnight, and the  
motion was confined to an east and  
west direction. The instrument showed  
that the earthquake was 2,000 miles or  
more distant.

The earthquake which caused so  
much alarm in the canal zone was  
recorded last night on the seismograph  
of the Victoria Seismological Observa-  
tory, the first wave reaching here at  
8:40 p.m., followed 20 minutes later by  
the maximum wave which travels  
round the earth's surface. The latter  
caused the pendulum here to swing  
nearly one-eighth of an inch. From  
the appearance of the trace, E. N. Niel-  
son, of the Meteorological Office, thinks  
this quake was sufficiently great to  
be recorded over the greater portion  
of the world. Making the necessary  
time allowances this is precisely the  
time the shock was felt in Panama.

## BOYS LASHED WITH LEATHER DOG WHIP

Their Offence Was Failure to  
Learn Their Catechism;  
Warrants Are Issued

Montreal, Oct. 2.—Boys five years  
old were given 36 lashes, boys eight  
years old 32 lashes, boys seven years  
old 28 lashes and boys six years old 26  
lashes because they did not know their  
catechism. Punishment as above  
was inflicted on four inmates of an  
orphanage in the eastern end of  
Quebec, according to a report which  
has been laid before the directors of  
the society for the protection of  
women and children by O. H. Schroeder,  
the secretary, and J. H. Oxeley, one of  
the directors.

They assert that the matter will be  
brought before Premier Gouin and that  
warrants have been issued against a  
priest and a woman who have been in  
charge of the institution.

There were many other boys beaten  
without justification, they say, but it  
is impossible to go into details as all  
the boys have not been interviewed, no  
occasion offering. The instrument of  
torture used in the cited cases was a  
leather-laced dog whip.

## OLD COUPLE DIE ON GOLDEN WEDDING EVE

New York, Oct. 2.—Christopher Rupp  
and his wife, Caroline, who were to  
celebrate their golden wedding anniver-  
sary on Saturday, were found dead in  
bed at their home, 37 Pearl avenue,  
Jersey City, yesterday.

They were killed by gas which es-  
caped from the burner of a stove which  
had been turned on accidentally. No  
suspicion of suicide exists. Mrs. Car-  
oline Blomberg, a daughter, who lives  
on the second floor, found her parents  
dead when she went to call them. It  
is believed Mr. Rupp, who was near-  
sighted, turned on the burner by mis-  
take when turning out a nearby light  
for the night.

Mr. Rupp was 79 years old and his  
wife 77 years of age. Both were born  
in Germany and married in New York  
on October 4, 1863.

## HEART ON RIGHT SIDE.

San Francisco, Oct. 2.—Physicians  
who examined Ralph Rose at the Cen-  
tral Emergency hospital yesterday, dis-  
covered that his heart was on the right  
side of his body, forced there by an at-  
tack of pleurisy. He was sent to a pri-  
vate hospital, where his case is at-  
tracting attention from the medical  
profession. His chances for recovery  
are said to be good.

## HUDSON BAY RAILWAY SUPPLIES WRECKED

Loss of Steamer Berenice Will  
Delay Work on the Wire-  
less Station at Nelson

Ottawa, Oct. 2.—The total wreck of  
the steamer Berenice, engaged in con-  
veying supplies for the Hudson Bay  
railway work at Port Nelson, is report-  
ed to the department of railways by  
wireless. No lives were lost.

The steamer Alcazar, returning from  
Nelson, brought the news and forward-  
ed it from Battle Harbor, Labrador.  
The vessel had a cargo of 2484 tons of  
bituminous coal, 335,000 feet of lumber  
and parts of the material necessary  
for the wireless station at Nelson. It  
will delay the erection of the station  
till next year.

The Sinbad and Boethic, when the  
Alcazar left, were unloading their cargo.  
The Alcazar unloaded only a part  
of her cargo before returning, as it  
was feared that the delay incident to  
the complete unloading of the Sinbad  
and Boethic would make it impossible  
for the Alcazar to completely discharge  
her cargo and return this season.

The cargo of the wrecked vessel was  
fully insured and the government sus-  
tained no loss. No further news of the  
wreck of the Berenice had been re-  
ceived in Ottawa up to late to-day.  
Efforts were made during the after-  
noon to get into touch with the Alcazar  
at Battle Harbor without success.

The most serious loss resulting from  
the wrecking of the vessel is that of the  
wireless telegraph equipment for  
Port Churchill. It had been expected  
that in the course of a few months  
Nelson would be placed in touch with  
civilization by a wireless service. An  
effort may still be made to bring that  
about, but if that is done the equip-  
ment will have to be sent to the  
shores of the Hudson Bay via the over-  
land routes.

## SHIPOAD OF BRIDES

London, Oct. 2.—Seventy-five per  
cent of the passengers of the Tur-  
nisha, sailing for Canada yester-  
day, comprised married women  
joining their husbands, and young  
women intending to be married im-  
mediately on arrival.

## NEWSPAPERMAN ACCEPTABLE.

Washington, D. C., Oct. 2.—The Rus-  
sian government, in reply to an in-  
quiry from the state departments sig-  
nified that Henry M. Pindell, the Pe-  
oria, Ill., editor, will be acceptable as  
ambassador to Russia from this coun-  
try, to succeed Curtis Guild, of Mass-  
achusetts, resigned.

## AMERICAN FLAG IS BARRED IN FILMS

Provincial Censor Will Not  
Pass Moving Pictures Show-  
ing Stars and Stripes

MANUFACTURERS ENTER  
PROTEST AT WASHINGTON

Censorship Here Said to Be the  
Most Strict Exercised by  
Any Province

NO CHANGE IN POLICY  
IS LIKELY TO BE MADE

Vancouver, Oct. 2.—Manufacturers of  
moving pictures in the United States  
have submitted a protest against re-  
jection by C. L. Gordon, censor of mov-  
ing pictures, of films in which the Stars  
and Stripes are displayed.

David F. Wilber, American consul-  
general at Vancouver, acting under in-  
structions from Hon. William J. Bryan,  
secretary of state of the United States,  
recently interviewed Hon. W. J. Bow-  
ser, attorney-general and acting-pre-  
mier, on the subject, and submitted a  
mild protest against the condemnation  
of "movies" dealing with American  
war scenes in which the Stars and  
Stripes were featured.

Mr. Wilber, questioned regarding  
the subject this morning, stated that  
he had taken up the matter with Mr.  
Bowser and had since forwarded a re-  
port to the American department of  
state. He was satisfied as to the con-  
tents of this report, and he said, how-  
ever, that no change in policy is con-  
templated by the attorney-general.

In the opinion of United States film  
manufacturers the censorship in British  
Columbia is far more strict than in the  
other provinces of Canada. They claim  
that pictures which are accepted in  
other parts of the Dominion are re-  
jected here. In view of this they en-  
listed the aid of the United States de-  
partment of state, urging that as the  
films condemned conformed to moral  
standards and were not considered ob-  
jectionable by censors in other prov-  
inces of Canada, the discrimination  
here was a serious menace to their  
business.

The moving picture reels, as most  
people are aware, are distributed by  
agencies and syndicates all over the  
continent, and are sent out on regular  
circuits. The firms which have com-  
plained to the British Columbia au-  
thorities contend that the rejection of  
a feature here dislocates the chain and  
puts them to great expense in substi-  
tuting other films.

Although no official information is  
forthcoming in reference to the "flag"  
censorship, it is understood that the  
action of the provincial government  
office was taken as a result of the  
agitation by several patriotic organiza-  
tions and individuals against the prom-  
inence given the American flag in the  
pictures shown at moving picture theat-  
res in this province.

## RETURNING OFFICER - OBJECT OF ATTACK

Chateaugay Official Enters Action as  
Reply to Criticism in Week-  
ly Paper.

Montreal, Oct. 2.—Legal trouble has  
already commenced over the Chateaugay  
election though the candidates  
have only just been selected and pol-  
ling day is not until Saturday, October  
11.

The trouble is over the appointment  
of J. E. C. Bumbay as returning offi-  
cer, and on account of it Mr. Bumbay,  
through his attorney, Mr. Gauthier, has  
issued a writ of \$10,000 damages  
against Albert Pigeon, editor and prop-  
rietor of the Bulletin.

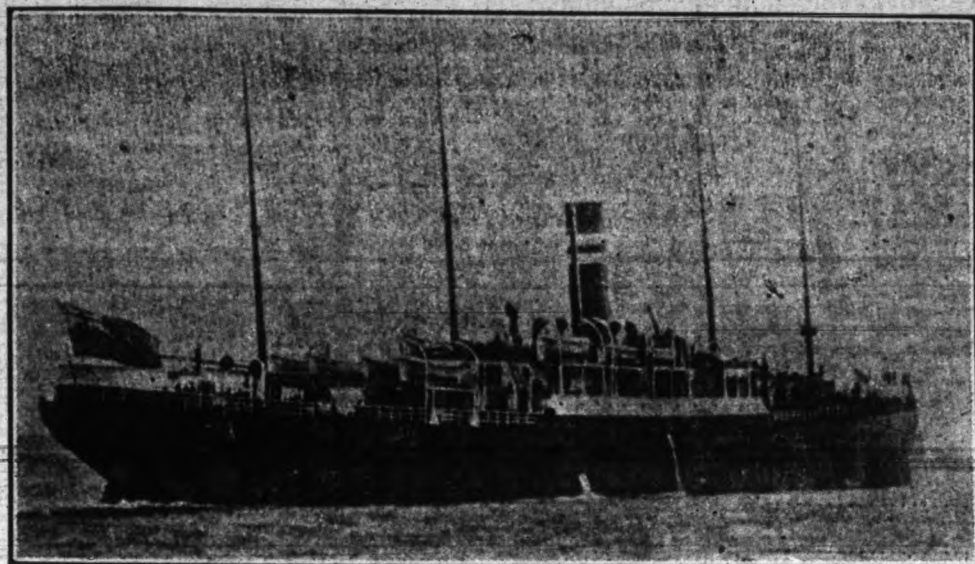

The plaintiff claims that several days  
before September 28 he was officially  
appointed returning officer for the  
Chateaugay election, and that this  
fact was generally published, particu-  
larly in Montreal newspapers, before  
September 28.

In the Bulletin edition of September  
28, the plaintiff alleges, he was at-  
tacked professionally and personally,  
causing damage to his reputation, and that  
it was intimated that as he, the plain-  
tiff, was mayor of Chateaugay, the  
election could not be conducted honest-  
ly because being mayor he would use  
his influence in getting votes in favor  
of one of the candidates. Mr. Bum-  
bay is a Montreal barrister.

## PREPARE SULZER DEFENCE.

Albany, N. Y., Oct. 2.—Final plans for  
the defence in the Sulzer impeachment  
case were drawn to-day in a long con-  
ference between attorneys and the gov-  
ernor. It is said that the first step will  
be to ask for a ruling from the court on  
the constitutionality of articles one,  
two and six, and whether the applica-  
tion to private uses of funds given  
without restriction constitutes larceny.  
Adjournment until Monday afternoon  
was taken in the trial after a few mo-  
tions made by counsel for the defence  
had been disposed of.

## C. P. R. STEAMER MOUNT TEMPLE

This fine steamer of the Canadian Pacific Atlantic fleet was recently aground in the St. Lawrence river below  
Maisonneuve, Montreal. The vessel was bound for London with passengers and freight and had left her dock not  
long before. Fog and smoke hanging over the water were blamed for the trouble. The steamer got off later without  
injury and proceeded on her voyage.

## FORCE DEMOCRACY ON UPPER HOUSE

Danish Folkething Determined  
That Progressive Legisla-  
tion Shall Not Be Blocked

Copenhagen, Oct. 2.—The dissolu-  
tion of the upper house of the Rigsdag  
is probable in consequence of the  
third reading in the lower house of a  
bill granting universal suffrage to  
women, depriving the crown of the  
right to nominate twelve members of  
the upper house and withdrawing the  
special privileges with respect to the  
suffrage heretofore purchased by  
wealthy voters.

The lower house is determined to  
make the upper house, in which the  
Conservatives have maintained a small  
majority, more democratic.

The Danish constitution contains no  
indication of any difference in the at-  
tributes of the two chambers which  
compose the Rigsdag. The Lands-  
thing, however, was evidently intend-  
ed to form the conservative element  
in the constitutional machinery. While  
the 114 members of the Folkething, or  
House of Commons, are elected for  
three years in the usual way by uni-  
versal suffrage, twelve out of the sixty-  
six members of the Landsting are  
life members, nominated by the  
crown. The remaining fifty-four mem-  
bers are elected for eight years accord-  
ing to a method of proportionate re-  
presentation by a body of deputy  
electors.

Of these deputies one-half are elected  
in the same way as members of the  
Folkething, without any property  
qualification for the voters. The other  
half of the deputy electors are chosen  
in the towns by those who during the  
last preceding year were assessed on  
a certain minimum of income or paid  
at least a certain amount in rates and  
taxes. In the rural districts the  
deputy electors returned by election  
are supplemented by an equal num-  
ber of those who have paid the highest  
amounts in taxes and county rates to-  
gether.

The franchise for the Folkething has  
hitherto been exercised by every male  
who has reached the age of thirty  
years.

## FIRE IN LONDONDERRY, N. S.

Halifax, Oct. 2.—A report received  
yesterday afternoon from Truro  
stated that a large fire at Londonderry,  
N. S., had destroyed the principal  
hotel of that mining town and a  
number of other important build-  
ings.

## GET ON THE LIST

All who desire to be put on the  
voters' lists for the province,  
which lists of course are used in  
the case of a federal election,  
are reminded that the first Mon-  
day in October is the last day  
upon which they can make ap-  
plication to be placed on the  
lists at the November revision.

All who are not now on the list  
and who are entitled to be  
added at the coming revision  
should make application at once  
to the secretary of the Liberal  
Association, 615 Cormorant  
street, to the registrar of vot-  
ers, Harvey Combe, at the law  
courts, or to any of the com-  
missioners who are empowered  
to receive applications.

The qualification requisite is  
being a British subject of full  
age, with residence in the prov-  
ince for six months and in the  
district for one month before  
the claim to be inscribed on the  
list is made.

## DIVORCE APPROVED BY DEAN OF DURHAM

Standard of Personal Purity is What  
Really Matters, Says Dr.  
Hensley Henson.

Southampton, Eng., Oct. 2.—Very  
Rev. Herbert Hensley Henson, dean of  
Durham, caused a sensation at the  
Church of England congress to-night  
by a speech in which he openly ad-  
vowed divorce.

He declared that the full significance  
of the growth of the movement in  
favor of divorce was not to be explain-  
ed by an outbreak of licentiousness. Its  
strength lay in the fact that it gave  
expression to the distinctly Christian  
factor of self-respect that would not  
acquiesce in a situation that had be-  
come degrading.

It was an error, he said, to fasten  
attention on divorce statistics. What  
really mattered was the standard of  
personal purity.

The audience listened with some  
show of uneasiness to Dean Henson's  
views, and was manifestly relieved  
when he concluded. Other delegates in-  
sisted that the church must maintain  
the doctrine of the permanency of  
marriage.

## CULEBRA CUT BEING FILLED FROM GATUN

Watering of the Big Ditch Has Begun  
Through Pipes Under  
Dyke.

Panama, Oct. 2.—Water was let into  
the Culebra Cut from Gatun lake  
through four 24-inch pipes under the  
Gatun dyke at 9 o'clock yesterday.  
At the present rate of flow the cut  
between the Cucaracha slide and the  
Gatun dyke, a distance of about five  
miles, will be filled to a depth of fifteen  
feet by October 10, the date set for the  
distraction of the Gatun dyke.

Since the suspension of steam shovel  
operations, the Cucaracha slide has ex-  
tended completely across the cut to the  
72-foot level, so that when the water is  
admitted to the probable lake level of  
sixty-eight feet on October 10, it can  
not pass this barrier. It is proposed to  
ditch through the slide and the result-  
ing rush of water is expected to carry  
away a large portion of the obstacle.

## PENNY BY WALL OF COAL MINER AWAITS

Centralia, Pa., Oct. 2.—With twenty-  
five feet of a solid pillar of coal to ex-  
cavate, rescuers hope to reach by  
noon to-morrow Thomas Toshkey,  
who has been entombed in the Con-  
tinental mine of the Lehigh Coal Com-  
pany for six days.

H. F. Fefner, mine superintendent,  
installed air compressors in the head-  
ing to-day and the work of digging  
away the wall of anthracite is ex-  
pected to proceed more rapidly. Dur-  
ing the excavation work last night  
only one miner at a time was able  
to pick into the face of the coal.

Toshkey is becoming very rest-  
less. He started to dig himself out of  
his cell and had picked away about  
three feet of coal in the direction of  
his rescuers when those of the out-  
side told him to be careful, lest he  
cut the rope used in drawing his pro-  
visions through the long pipe that has  
been inserted in a mine breach, but  
he said he had to do something to help  
pass the time away.

## PURCHASER AT LAS.

Toronto, Oct. 2.—For the third time  
within a year Master-in-Ordinary Al-  
corn offered the Sterling mine property,  
near Arsenic Lake, for sale by public  
auction at Osgoode Hall, and this time  
he secured a purchaser to complete the  
transaction. The property was sold for  
\$250,000 to the Montreal Trust Com-  
pany, the only bidder.

## PROJECTILE DESIGNED TO DESTROY AIRSHIPS

Humble French Inventor Gives  
a Demonstration of Bullet  
Which Promises Well

Paris, Oct. 2.—On obscure inventor  
named Sava Rogozza has just demon-  
strated discoveries which promise to  
revolutionize rifle-firing.

His invention consists of a special  
cartridge and double inflammable bullet  
primarily designed for the destruction  
of airships. In his experiments  
Rogozza used an old gun built in  
1839.

Although his cartridge was filled with  
powder, spectators were astonished to  
see neither smoke, flash nor recoil as  
he fired, the strange long bullet travel-  
ling straight to the butt instead of  
executing a series of irregular bounds  
as it should have done, according to  
accepted ballistic laws.

The bullet carried 1,200 metres, but  
it is calculated that with a modern rifle  
it would have carried 3,000 metres.  
Rogozza also claims to have in-  
vented a cannon costing only 300  
francs, or about \$60, easily carried by  
two men, which can throw a shell 7,000  
metres.

Another invention which he has  
brought forward is a shrapnel shell  
which scatters its contents along the  
level of the ground, moving all in its  
way instead of dropping from above.

## MISCREANTS ATTEMPT TO WRECK NEWSPAPER

Coudersport, Pa., Oct. 2.—An at-  
tempt to wreck the plant of the Potter  
Enterprise was made early to-day. A  
heavy charge of dynamite was ex-  
ploded under the typesetting machines.  
The side of the building was blown  
out, but the machines were only  
slightly damaged.

No one was in the building at the  
time. The force of the explosion broke  
windows in surrounding buildings. To  
place the charge a tunnel had been  
made from an alleyway under a wall.  
The Enterprise is published by M.  
T. Stokes, who was formerly engaged  
in newspaper publishing in Ohio. The  
paper has been conducting a very  
vigorous campaign on local issues.

A reward of \$500 has been offered by  
the county commissioners for the ar-  
rest of those responsible for the out-  
rage.

## BRITISH MANUFACTURES BY EXHIBITION TRAIN

London, Oct. 2.—The Canadian As-  
sociated Press learns that the idea of  
running a made-in-Ireland train  
through Canada, to bring Irish manu-  
factures before the notice of the Do-  
minion, has been abandoned in favor  
of an exhibition train embracing the  
manufactures of every part of the  
United Kingdom.

The scheme has been received  
favorably by the manufacturers asso-  
ciations here and the Canadian boards  
of trade have already extended a  
hearty welcome.

Addresses will shortly be delivered  
in the industrial districts setting  
forth the scheme fully.

## ASK FOR SHORTER DAY.

Winnipeg, Oct. 2.—Demands for a  
shorter day without a reduction in  
wages have been made by trainmen of  
the western division of the C. P. R.  
The men asked that the working day  
be shortened one hour. Representa-  
tives of the railroad and of the men  
are holding conferences. Grant Hall,  
general manager of the C. P. R., is  
having a series of conferences with the  
trainmen.

## INVENTOR MISSING; SLIPS FROM SIGHT

Dr. Rudolf Diesel, Who Ori-  
ginated the Oil-Engine, Dis-  
appears Mysteriously

WAS PASSENGER ON  
CROSS-CHANNEL BOAT

Contradictory Reports as to  
His Presence After Vessel  
Left Antwerp

Was on Way to London to At-  
tend Meeting of His  
Company

Antwerp, Oct. 2.—The mystery of the  
disappearance of Dr. Rudolf Diesel,  
the German inventor, while on his way  
from Germany to England was still  
further deepened to-day by the asser-  
tion of a member of the crew of the  
cross-channel steamer Dresden, who  
said that Dr. Diesel went on board the  
steamer at 5:30 in the evening of Sep-  
tember 28, but on learning that the  
vessel was not to start until 7:30 went  
ashore and was not seen again.

Dr. Diesel, inventor of the Diesel oil  
engine, disappeared under most mys-  
terious circumstances. He is supposed  
to have left Antwerp on Sunday to  
attend in London the annual meeting  
of the Consolidated Diesel Engine  
Manufacturers. He embarked on the  
steamer Dresden, accompanied by a  
fellow director, George Carels, and  
Herr Luckmann, chief engineer of the  
company.

Dr. Diesel had a cabin to himself. On  
the arrival of the vessel at Harwich  
he was missing. His bed had not been  
slept in, though his nightclothes were  
laid out on it.

It was at once feared by his friends  
that Dr. Diesel had fallen overboard.  
His complaint to a friend some time  
ago that he was occasionally troubled  
with insomnia, and it was thought  
possible that when his friends retired  
to their cabins he decided to continue  
the stroll on the deck.

He was in the best of health, in very  
cheerful spirits and had expressed most  
 sanguine expectations as to the fu-  
ture of his engines and the develop-  
ment of the company.

London, Oct. 2.—The statement made  
by a sailor that Dr. Rudolf Diesel did  
not travel on board the steamer Dresden  
is contradicted by the declaration  
of George Carels, an official of the  
Diesel Company, that he dined with  
Dr. Diesel on board the Dresden and  
left him on the ship's deck at 10  
o'clock on September 28.

## BODY FOUND FLOATING IN VANCOUVER HARBOR

Vancouver, Oct. 2.—Lying near the  
Kirkpatrick shingle mill, on the beach  
at Second Narrows, Constable Deacon  
found the body of a man in a badly  
decomposed condition yesterday morn-  
ing about 11 o'clock. The body must  
have been in the water for at least  
six weeks. The face was almost com-  
pletely gone with the action of decay  
and the wash of the water, and the  
hands were missing.

The man was five feet two inches in  
height, well dressed in a brown tweed  
suit, with black shoes, green and white  
shirt, soft collar and a green knitted  
silk tie. He had five gold crowns on  
the teeth of his upper jaw and three  
gold crowns on the teeth of the lower  
jaw. In his pockets were found two  
pipes, a knife, watch fob, comb and a  
black rubber tobacco pouch. There  
was a return ticket from Port Moody  
to Barnet, dated August 25.

According to the evidence of the  
date on the ticket the body could not  
have been in the water much over five  
weeks, but the undertakers say that  
the decay seems to have taken place  
with unusual rapidity, being equal to  
that of a body which had been im-  
mersed for several months. Various  
papers which were in the pockets were  
unreadable from the action of the  
water.

## SITTING BULL'S CHILD IS IN SEARCH OF WORK

San Diego, Cal., Oct. 2.—Sitting Bull's  
daughter is in San Diego and in need,  
according to a written statement made  
to Police Chief Wilson yesterday by  
that young woman. In her letter she  
says she is seeking employment that  
will bring her in a living.

According to her account she has had  
a most interesting career. Captured  
and recaptured a dozen times, she  
writes, she finally was found on the  
battlefield of Wounded Knee strapped  
to the back of her brother, who had been  
dead for three days. General L. W.  
Colby, of Beatrice, Neb., adopted her  
and cared for her. She was graduated  
from the Beatrice High School, the  
Downer College in Milwaukee and the  
Kansas University.

Police Detective Boucher vouches for  
her. Mrs. Boucher, the daughter of  
the Indian chief who was schoolmate  
in Nebraska.

W. W. GLASS

Successor to Alex. Peden.  
High-class Tailor, 211-213 Bayward Block.

## SAVAGE CRIME IS COMMITTED BY BOY

Kills His Employer and Then Proceeds in Cold Blood to Murder the Family

Nantes, France, Oct. 2.—A crime of incredible savagery was committed Monday by a boy fifteen years old, who murdered with an axe seven persons in the village of Basbridge en Landreau, in the department of the Loire Inferieure.

The boy, Marcel Redureau, employed as a vine cutter, and his employer, Georges Mabit, quarrelled yesterday morning. The boy became angry, seized an axe, and with a single blow cut Mabit's throat from ear to ear, killing him instantly.

The young murderer then entered the house and dashed up to Madame Mabit and slashed her throat till she was dead and then killed her servant in the same way.

The boy then proceeded to another room, where he dispatched his employer's mother and then killed three of Mabit's children. He spared a fourth child, aged four, lying by their side.

Redureau then went to bed and slept calmly until morning. The bodies were discovered by villagers. After his arrest he made a complete confession.

### LADY SHAUGHNESSY BETTER.

Montreal, Oct. 2.—Restored to good health, Lady Shaughnessy has left the Royal Victoria hospital and is now at her home. Lady Shaughnessy had been confined to the hospital here for several weeks.

## MANUEL'S BRIDE HAS HAD ENOUGH OF HIM

Will Return to Her Father's Palace After Her Short Experience With Deposed King

London, Oct. 2.—All Europe has become interested in the question: "Why should King Manuel's bride decide to leave him a month after the marriage, which, by a political revolution, would place her on the throne of Portugal?"

In regard to persistent rumors which have been in circulation, a telegram from Munich states that "the report that Dona Augusta Victoria will not return to King Manuel, although not confirmed, in the circumstances cannot be dismissed."

The Daily Mail, after giving the bulletin issued to-night by Prof. Von Rosenberg and two other specialists, says: "Officers of Prince William of Hohenzollern's household appear to be under strict orders not to say anything."

The Vienna correspondent of the same newspaper, writing to-night, says: "I learned from persons connected with the court that the disease from which King Manuel's bride is suffering will require several weeks for a complete cure, after which she will return to her father's palace."

There she will stay until her former health is entirely restored and then plans for the future will be discussed. The possibility of anything beyond a nominal reconciliation between the royal pair is not credited here."

## INTERESTS OF WOMEN UNSAFE WITH THE MEN

Dean Welton, While Asserting This, Does Not Believe in Militancy.

Southampton, Eng., Oct. 2.—The custody of women's interests is not safe in the hands of men, according to a declaration made yesterday at the resumption of the Church of England Congress, by the Very Rev. James Welton, dean of Manchester.

The contention that they were safe in man's custody was disproved, he asserted, by legislative inequalities, which, for too long a time, had determined the relation of sexes, both in the political and moral sphere. He considered it to be a social, not less than a spiritual error to entrust the custody of women's interests to men.

The chivalry of men toward women was only a half learned lesson, he declared, otherwise how could the enactment of a law against white slavery have been delayed until the twentieth century.

The suffragettes present at the church congress, however, got small encouragement from Dean Welton. In his address, he pointed out that women were treated with greater honor and respect because they belonged to the weaker sex, he asked:

"Could there then be a greater folly than to destroy the mutual sympathy between the sexes by a fight for superiority or equality—a fight in which, as far as it can be decided by physical strength, women must come out second best. The intuitive respect of man for women is the supreme asset of womanhood, and nothing in the world can ever atone for the loss of it."

## KUBELIK ARRIVES WITH HIS PRECIOUS VIOLIN

Artist, Who Has Made Money in South America, Will Tour United States.

New York, Oct. 2.—Jan Kubelik, the violinist, who will go on a tour with Mme. Melba, was an arrival on the Kaiserin Augusta Victoria. He was accompanied by Mme. Kubelik and the \$100,000 violin, but not by the famous twin sisters, Anne and Marianne. The twins, who are eight years old, were left at home in Kolin, Bohemia.

According to Kubelik, he has been "taking the money" successfully in South America. He had thirty appearances in Argentina and Chile, for which he received \$2,000 each. He will have eighty appearances in this country, Canada and Cuba, and will receive \$120,000 for his work. He is insured for \$160,000.

## HINDU IS ACCUSED OF DECEIVING OFFICIALS

Vancouver, Oct. 2.—Alleging that Natha Singh, known also as Bhagwan Singh, deceived the officials at a long time into believing that he had previously been in Vancouver and thereby obtained a ticket entitling him to return, the immigration officials here have arrested the man and have started deportation proceedings.

It is stated that the Hindu produced letters purporting to be from a local coal company to himself and a pass book on a local bank, and passed an examination in regard to local distances and conditions.

Malcolm R. Reid, inspector of immigration, who ordered the arrest, says he has information that since Bhagwan Singh's arrival he has been busy stirring up sedition among the Hindus. He has been released on \$2,000 bail.

### COTTON MILLS TO CLOSE.

Lancashire, Eng., Oct. 2.—The Lancashire cotton employers have decided to close all their mills from October 25 until the strike of the workmen at the Beehive mill, Bolton, has been settled. The workers at the Beehive mills struck against the advice of the officials of their trades union owing to their objection to the personality of one of their overseers.

"Nag" Roof Compositions are fire-proof and add years to the life of an old roof. See Newton & Greer Co., 1226 Wharf Street.

## SERIOUS SITUATION CONFRONTS CHICAGO

Company Operating Incinerator Refuses to Dispose of the City's Refuse

Chicago, Oct. 2.—Mayor Harrison has called a special meeting of the council to determine some method of disposing of the city's garbage.

At midnight the plant of the Chicago Reduction Company, which has taken care of refuse was closed following the ignoring of the company's ultimatum served upon city officials, that unless it was paid \$425,000 in cash by 12 o'clock "we will let the garbage rot in Chicago's alleys."

Aroused by the menace of 700 tons of garbage accumulating daily in Chicago, many aldermen asserted to-day that the city would be justified in exercising its police power to seize the plant.

Following the notice of the company, Commissioner of Public Works McGinnis requisitioned every available scow and garbage wagon and dumped 1,500 tons of garbage on the docks at the company's plant before midnight.

The company's act followed the failure of the appraisers to agree upon the value of the plant.

Orders were sent to the various wards to-day to cease the collection of garbage. Householders were urged for the time being to burn their garbage in furnaces. It was decided that for a time refuse not classed as animal or vegetable would be collected by the city and dumped in abandoned clay holes. The situation is regarded as very serious, as there is always more or less typhoid at this season.

Suggestions that the plant of the company be seized are not regarded as practicable. A special meeting of the city council will be held, but there is no hope of immediate relief. It is said that the investment in the reduction plant was less than \$200,000. According to Harold Almet, appraiser for the company, the profits for three years have averaged \$185,000 a year.

## EUGENE O'KEEFE PASSES AWAY AT RIPE OLD AGE

Was Well Known in Commercial and Religious Circles in Ontario.

Toronto, Oct. 2.—Eugene O'Keefe, one of the venerable leaders among the Roman Catholic laity of Toronto, died yesterday morning at his home on Bond street.

Mr. O'Keefe was one of the foremost brewers of Canada, having founded the Victoria Brewery in 1861. He had been president of the Ontario Brewers' and Malsters' Association, president of the Home Bank of Canada, an executive member of the Toronto branch of the United Empire League and a trustee of the Toronto General Hospital.

He was a prominent philanthropist and gave largely to the objects of the Roman Catholic church, of which he was a lifelong adherent. For his great services in this direction he was appointed a private chamberlain to his Holiness the Pope in 1909. His last conspicuous philanthropic act was the gift of St. Augustine's Seminary at Scarborough, which was built and equipped at a cost of \$300,000. Six years ago he presented the diocese of Toronto with St. Monica's church and presbytery at a cost of \$2,000.

Mr. O'Keefe was born in Brandon, County Cork, in 1827, coming to Canada with his parents in 1832, and to Toronto in 1834. In 1842 he married Miss Helen C. Bailey, who died in 1899.

## VINTAGE IN FRANCE HARDLY HALF NORMAL

Bad Weather Reduces Wine Output and Sharp Rise in Prices Will Follow.

Paris, Oct. 2.—Grape harvesting has commenced at Macon, in the Beaujolais, in the Gironde department and in the Champagne district. It is already general in the south. Reports from every district show that the quantity is extremely deficient, but the quality far superior to that of 1912.

Four of the leading departments in the south will hardly reach one-half the normal output and a sharp rise in prices is inevitable.

There will be considerable imports from Spain, where the harvest is normal.

As regards the quality of champagne already arriving, the promise of the Champagne district is excellent, up to the beginning of August the output was expected to reach from 55,000 to 60,000 barrels, but unfavorable weather since then has reduced the estimate to 40,000 barrels.

## SUFFRAGETTES ASSAIL POLICEMEN VIOLENTLY

London, Oct. 2.—A lively scrimmage between the police and the militant suffragettes occurred yesterday, when Miss Harriet Roberts Kerr and Mrs. Beatrice Saunders, secretary and treasurer of the Women's Social and Political Union, were arrested at their headquarters under the provisions of the "cat and mouse" act.

Mrs. Saunders is under sentence of fifteen months imprisonment and Miss Kerr twelve months for conspiracy. They were liberated in June after a "hunger strike."

LARGEST SINGLE  
COLLEGE BUILDING

Hart House at Toronto University Will Be Immense Structure, Costing Million

Toronto, Oct. 2.—When the new Hart House is finished, Toronto University will have the largest single college building in Canada. The cost of erecting the new structure, exclusive of furnishings, will be \$1,500,000, and not until late in 1915 will it be ready for occupation.

The building will be 390 feet by 210 feet and three stories, a basement and a sub-basement. The architecture is English Gothic, in perpendicular scholastic style. Gray Georgetown sandstone will be used for the exterior walls and the trimmings will be in Indiana limestone.

One of the features will be an underground theatre, which will form part of the sub-basement. This theatre will have a seating capacity of 500 people and will be 150 feet by 55 feet. The stage will be 24 by 55 feet, and attached will be individual dressing rooms.

A special ventilation system will be installed to insure a constant supply of fresh air from outside. The roof of the theatre will form a quadrangle 195 feet long, and will be one of the largest pieces of monolithic concrete ever undertaken in this country. Another apartment in the sub-basement will be a rifle range 100 feet long and 20 feet wide.

In the basement will be situated a standard-size swimming pool for the 25 yards' dash. Two locker rooms will have a capacity of almost 4,000 lockers. The billiard room will be capable of holding ten English billiard tables. Other important apartments on this floor will be the kitchen, pantries, shower baths, a barber shop and cloak rooms.

On the first floor will be the gallery to the swimming pool and a large dining room, 115 by 40 feet. The dining hall will follow out the old English beam ceiling effect, the ceiling being about 35 feet high. A gymnasium, 100 by 62 feet, will also be on this floor.

This building, outside of a grant of \$100,000 from the Ontario government, is a gift from the trustees of the Massey estate.

AUSTRALIA INSISTS  
ON CONTROL OF NAVY

British Officer Lent to Commonwealth Is Withdrawn as a Result of Friction.

London, Oct. 2.—Captain Hugh S. Onslow, of the Royal navy, whom the Admiralty last year loaned to the Australian naval authorities, has suddenly been relieved of his duties.

It is an open secret that there has been considerable friction for some time past between the British officer lent by the Admiralty to the Australian navy and the Australian naval board, owing to the manner in which the latter has interfered with the former in the discharge of his duties, according to the prescribed customs of the British naval forces.

The president of the naval board is Senator Price, minister of defence of the Commonwealth.

SUPERVISE SPENDING  
OF MUNICIPALITIES

Saskatchewan Discussing Propriety of Oversight of Public Works Outlay.

Moose Jaw, Sask., Oct. 2.—A meeting of the executive of the Union of Saskatchewan Municipalities has been called at Regina for October 8 for consideration of the question of approaching the provincial government as to the formation of a local government board or kindred body, which shall supervise the expenditures of municipalities on public works and authorize loans for such works.

The matter has been taken up on the advice of eminent financiers, who believe the government stamp on loans will magnify investors. It is being considered in all prairie provinces, but Saskatchewan is the first to take any active steps upon it.

## DENIAL GIVEN BY COMPANY.

Montreal, Oct. 2.—Sweeping denial is given to the report circulated here that the plants of the Canadian Car & Foundry Company would have to close down on account of scarcity of orders. R. A. Skelton, secretary here, states that there are at present on the books old orders sufficient to carry the company well into the new year.

## WINNIPEG WATER BY-LAW.

Winnipeg, Man., Oct. 2.—Winnipeg ratepayers yesterday almost unanimously upheld the \$13,500,000 by-law of the greater Winnipeg water district, but they turned down the \$75,000 by-law for the Winnipeg General hospital, it being defeated on the three-fifths clause.

## TRADE IS INCREASING.

Ottawa, Oct. 2.—Customs figures given out to-day by the minister of customs show that Canada's trade is growing. For the first six months of the present fiscal year the customs receipts were \$58,336,767, as compared with \$56,489,139 for the corresponding period last year. The revenue for September was \$9,789,528.

## SHOT ACCIDENTALLY.

London, Oct. 2.—F. E. Thompson, the English and Argentine financier who visited Canada recently on business, shot himself accidentally in his home yesterday and died immediately.

HE NOW BELIEVES  
IN 'FRUIT-A-TIVES'

Because He No Longer Suffers With Headaches

"Taylorville, Ont.  
"I was a sufferer from Fearful Headaches for over two years. Sometimes they were so bad that I was unable to work for days at a time. I took all kinds of medicine, was treated by physicians, but yet the Headaches persisted."

"A short time ago, I was advised to try 'Fruit-a-tives' and I did so, with I must confess, very little faith. But after I had taken them for three days my Headaches were easier and in a week they left me."

"After I had taken a box of these tablets my Headaches were quite cured. My appetite was always poor and my stomach bad—and now my appetite is splendid and my digestion excellent."

"I had become thin and weak from the constant Headaches, but now not only have I been cured of all these awful Headaches, but my strength is growing up once more and I feel like a new man."

"BERT CORNELL."  
Take "Fruit-a-tives," 50c. a box, 6 for \$2.50—trial size, 25c. At dealers or from Fruit-a-tives, Limited, Ottawa.

THOUSANDS WASTED IN  
SAWDUST DESTRUCTION

By-Products Resulting in the Manufacture of Rubber Can Be Obtained.

Ottawa, Oct. 2.—That every one of the countless tons of sawdust which annually go to waste in the mills in and around Ottawa would yield a by-product valued at \$40 is the interesting information to be gathered from a bulletin just issued by the forestry branch of the department of the interior.

The by-products are acetone and fusel oil, which are worth about \$400 a ton, and it takes about ten tons of sawdust to yield a ton of these valuable constituents.

The discovery is the result of experiments made in England which have demonstrated that the commercially successful production of acetone and fusel oil from sawdust is possible through a simple process of fermentation.

The two by-products can be converted into rubber merely by allowing it to lie in contact with a small quantity of metal sodium.

In this connection it is worth noting that one of the Victorians is at present preparing a dust and mill-waste in a co-product.

IMMIGRATION FROM  
STATES INCREASING

Total of Arrivals This Year From Across the Line Will Reach 140,000.

Winnipeg, Oct. 2.—"I believe that immigration into western Canada from the United States will this year reach a total of 140,000, which will be a slight increase over 1912, when it amounted to 139,000, the highest figure on record," said J. Bruce Walker, commissioner of immigration, when discussing the question yesterday. Mr. Walker went on to say:

"The movement this year has been extremely spasmodic. During the months of May and June it showed a distinct falling off in comparison with last year, but as the facts about the crop in western Canada became known, it suddenly jumped up to a 60 or 70 per cent increase over preceding weeks."

## DEADMAN'S ISLAND CASE.

Ottawa, Oct. 2.—The celebrated Deadman's Island case will be heard before the Exchequer Court on November 18. The case was fixed for September 8, but was postponed by agreement between the parties concerned. The department of justice, on behalf of the city of Vancouver, is endeavoring to break a lease of the Island granted to Mr. Ludgate.

BEST LAXATIVE FOR  
BOWELS—"CASCARETS"

When Constipated, Headachy, Bilious, Breath Bad, Stomach Sour

Get a 10 cent box.

Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passage-way every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipated Bowels. Cascarets belong in every household. Children just love to take them.

Phoenix Beer, 11.50 per doz. etc.

LITTLE TOT TRAVELS  
SEVEN THOUSAND MILES

Four-Year-Old Making the Journey From Vienna to Mother in California.

New York, Oct. 2.—Stitched to the skirt of a four-year-old child who reached here unattended on the liner Prinzessin Cecilie was a card on which was written by the ship's doctor in several different languages: "Please take care of me. I am going to my mamma. Please do not kiss me."

The little girl, Margeretha Ritschen, came from a town near Vienna, where her mother had left her in a relative's care on marrying for a second time and emigrated with her new husband to California.

Recently the mother sent for her daughter, who on reaching her destination will have travelled about 7,000 miles. A family about to leave Ellis Island for California is expected to be entrusted with the care of the little girl on the overland journey.

## MR. DUNSMUIR RE-ELECTED.

Montreal, Oct. 2.—At the annual meeting of shareholders of the Canadian Pacific Railway yesterday the re-elected directors, D. McNeill, Charles E. Hosmer, Senator Mackay, and James Dunsmuir, were all re-elected.

At a meeting of the board subse-

quently held, Sir Thomas Shaughnessy was re-elected president, Mr. McNeill vice-president of the company, and an executive committee appointed as follows: Richard B. Angus, David McNeill, Sir Edmund B. Osler, Sir Thomas Shaughnessy, Lord Strathcona and Mount Royal and Sir William C. Van Horne.

## BRITISH TORPEDO EXCELLENCE.

London, Oct. 2.—Important developments are in progress with regard to the government's torpedo factory at Greenock. New buildings are being erected to employ 300 extra men per building. An improved method of propulsion of torpedoes has been discovered that excels anything previously produced. It is now being severely tested, and the secret is being guarded, the contract of each workman being restricted to a small portion of each torpedo.

## NEW GERMAN SQUADRON.

Berlin, Oct. 2.—The third squadron of the German high seas fleet is being brought into existence and tentatively commissioned for a year, consisting of the dreadnought Kaiser, the pre-dreadnoughts Elsass and Braunschweig and the new vessels Koenig Albert, Prinz Regent Luitpold and the Kaiserin. Other new vessels will be added until the fleet consists of eight dreadnoughts.

MARRIED IN SHROUD  
SHE MADE FOR BURIAL

After a Marvellous Recovery From Prolonged Illness Bride Finds Use for Dress.

Baltimore, Md., Oct. 2.—After being pronounced incurable by a score of more doctors of the first rank and operated on nine times, each time with supposedly fewer chances of recovery, Miss Sophie Koerth, of this city, was married to Jeremiah Rallsbach in the dress which she, four years ago, made with her own hands for her shroud.

Four months ago, after the last and most daring of the operations, Miss Koerth felt for the first time that a cure had been effected. Since then she has been strong enough to carry a market basket half a mile or more and has not felt the faintest trace of her former pain.

Miss Koerth's case is well-known among abdominal experts. At one hospital she begged to be operated on but the doctors refused to have her put on the operating table, declaring it would mean nothing but death.

Spread a Lunch Table—With our genuine imported Delicatessen—and a bottle of delicious Humber—it's a meal fit for a king—at The Kaiserhof.

### HIGH COST OF LIVING.

The Colonist argues that the high cost of living to the people is the fault or the folly of the people. In the last analysis of course this is true. The people are to blame for lending their ears to false and selfish counsels. They were told and believed that if they condemned by their ballots a proposition which involved a reduction of taxation by abolishing duties on foodstuffs terrible things would befall them. Unemployment would follow and wages would be reduced. They had been filled to repletion with the false economic doctrine that taxation is the true foundation of progress and prosperity; that relief from taxation would surely be followed by poverty and distress. Probably the actual condition of affairs in British Columbia and other parts of Canada at the present time has convinced the people that in listening to such counsel and adopting it they were sorely misled. Artificial obstructions to trade have given trusts and combinations, the natural and inevitable fruits of a pernicious economic system, the opportunities they craved. Viewing the results of the last election with triumph, they assumed that a policy had been endorsed that would endure possibly for a generation, and they proceeded to improve still further upon the opportunities they had enjoyed in the past. Their organization was perfect. The matter of fixing prices was a mere matter of detail. The consequence is that the cost of living has been raised to the point where at least one provincial government in Canada has been compelled to open its eyes and take notice. The Whitney administration of Ontario—and it is by no means a revolutionary government—has reached the conclusion that there is something rotten in the system of food distribution, with the producer on the one hand and the consumer on the other getting very short ends of the stick, and it is going to intervene, in so far at least as the marketing of native products is concerned. It is interesting to note that there is one government in Canada that has its ear to the ground and has heard the rumblings portending an economic upheaval.

However, passing from the general to the particular, will the Colonist attempt to argue that the discrepancy in the prices of foodstuffs as between Victoria and Vancouver, with common sources of supply and no artificial barriers to trade in the shape of taxes, is also the fault of the people? A considerable number of persons in this city who are laboring under the impression that the old and salutary law of supply and demand has nothing whatever to do with the determination of prices would like to be enlightened upon this most interesting point.

### GOLF.

There must be something in this game called golf, or "golf," or "gowf," or whatever the mystery of the pronunciation may be. It cannot be so slow as those who scoff at it profess, or the rushing Americans would not take to it with such characteristically national avidity. It appears a man named Milne, a patriarch of four score and one years, turned in a score of 93 a few days ago on some of the links around New York, and the newspapers of that city have given the feat almost as much space as they will the series of games for the world's baseball championship or the trial of Sulzer for misappropriation of election funds. We candidly admit ignorance of the significance of a score of 93, but it must have been some feat, because the newspapers also comment upon it editorially. The Sun wants to know whether the young man Osmet will be likely to turn in such a score when he reaches the age of

eighty-one, and concludes that the chances are one thousand to one against him. Investigation by the editor disclosed the interesting and astounding fact that Mr. Milne had been playing the game for sixty-nine years. This brought forth the exclamation, "Sixty-nine years of golf! What ineffable bliss!" Positively, we must examine into the qualities of this fascinating game of golf.

### THE GOVERNMENT'S RESPONSIBILITY.

Mr. E. Jacobs, the well-known writer on mining subjects, in a letter to the press, seeks to meet the criticism lodged against the provincial authorities in connection with the coal mine troubles on this island. Dealing with the charges relating to the employment of Orientals, he quotes from the report of the Minister of Mines for 1912 to show that there were in that year a number of Chinese employed at the mines, but that of the whole 739 so occupied, 416 were employed above the ground and 323 underground, while 183 of the latter were laborers, so that there were only 140 Chinese miners. He is unable to give particulars for the current year, the figures of which are not yet available from official sources, but is informed that there are considerably more Orientals employed at Cumberland than in the past.

Mr. Jacobs wants to know wherein any law of the province is violated in the employment of Orientals in or about the coal mines. The Coal Mines Regulation Act prohibits the employment of persons as coal miners in mines who are not in possession of certificates of competency as such. It also provides that no Chinaman or person unable to speak English shall occupy a position of trust or responsibility in or about a mine whereby through his ignorance, carelessness or negligence he may endanger the life or limb of any person employed in or about a mine, namely: as bankman, onsetter, signalman, brakeman, switchman, furnaceman, engineer, or to be employed at a windlass of a sinking pit. Neither of these clauses, of course, can be deemed to prevent the employment of Orientals in or about a mine, if Chinese possess certificates of competency, they may work as coal miners, and even those without certificates can be employed in the mine as laborers.

But it has been charged by the men at Cumberland and others, including a member of the provincial legislature, that the provisions of the act have been ignored by the company, and that Chinese who are not qualified under it have been permitted to mine coal. It is not claimed that the law is contravened by the employment of Chinese in or about the mine, which everybody knows the statute does not prohibit. The charge that is made is a serious one which even Mr. Jacobs has not disproved. Instead, he asks those who make it to establish the proof. There is no analogy in these circumstances and those which obtain in ordinary criminal trials, in which the prosecution must prove the guilt of the accused. In the latter case the resources of the crown are devoted to the establishment of a charge. It should not be necessary, for the men who make the complaints at Cumberland to prove them before the provincial authorities will intervene. For reasons abundantly manifest, they could not do so even if their allegations were entirely true.

The only agency which can disclose the truth or falsity of these charges is the provincial government, and the act provides ample machinery for their ventilation. The law states that if at any time representation is made to the minister by an inspector "or otherwise" that any coal miner holding a certificate by reason of incompetency, drunkenness or negligence is unfit to discharge his duties, the minister may cause an inquiry to be made. This inquiry shall be public and at such place as the minister may appoint, by a county court judge, police magistrate, stipendiary magistrate, or any other person or persons as the minister may direct. Surely the department has sufficient justification for the authorization of such an inquiry. If there is nothing in the charges which have been made from time to time, one would imagine that the company and the government would be glad of an opportunity to establish their falsity once and for all. Mr. Jacobs' letter in no way clears the air, because he has no information other than that which is easily available to the man in the street. It is openly charged that Chinese are employed in the Cumberland mines in violation of the act. Will the government institute an inquiry and in the interests of the law it is sworn to enforce ascertain whether they be true or false?

Little attention need be given to Mr. Jacobs' justification of the government's attitude of non-interference in the original Cumberland dispute. It smacks too much of special pleading. The coal mines are public utilities and in their operation the public are intimately concerned. This is recognized in the legislation regulating the industry on the provincial statutes, by the federal Industrial Disputes Act,

and latterly by the appointment by the provincial government of a commissioner to investigate the coal situation in British Columbia. That being so, disputes between companies and employees are not merely private squabbles. Being matters of public concern, it is the duty of the government to lend the whole weight of its influence to effect a settlement. It is absurd to dodge behind the Industrial Disputes Act. If that legislation does not meet the case, or if the Minister of Labor at Ottawa finds himself powerless or incompetent to deal with the situation, it makes more pressing the duty of the provincial government in the premises. Had prompt action been taken in the original dispute at Cumberland we believe an amicable settlement would have been reached and the deplorable consequences at Nanaimo, Ladysmith and Extension averted.

### TALE OF A RAREBIT FIEND.

The imaginative correspondent of the Montreal Star in London, who rejoices in the euphonious nom de plume of "Windermere" (not Merewind), has surpassed himself in one of his latest cable effusions. This is considerable of a record, for no Canadian correspondent across the Atlantic has ever burned the cable with so much inconsequential rubbish in the interest of a reactionary propaganda as this vivid individual. His latest announcement, from one of those "high authoritative" sources, who apparently are literally fighting one another to tell him state secrets first, is that the Imperial Defence Committee has decided to make Vancouver an Empire naval base on the Pacific, on which the Canadian government is to spend \$25,000,000. No mention is made of Esquimalt. Probably Windermere's "high authority" has never heard of it.

But that is not the whole of Windermere's effervescence. Here is a sample fished at random from the story:

"A fully representative Imperial defence conference may or may not take place in London in November, but the Admiralty is fully conscious of momentous naval happenings in the outside world since the Senate rejected the Borden measure, and Canadians need not be surprised if one consequence of the Senate's action is that a German Imperial squadron will be seen off Vancouver before the British Imperial squadron, which Mr. Chalmers has planned, with the co-operation of New Zealand, Australia and Canada."

Thus the German menace in frenzied terror has darted across the Pacific, rounded the Horn and is about to coquettishly disport itself, the cheeky thing, right off our very shores. We consider the location of the German peril by Windermere as a really clever bit of work. When it disappeared from the North Sea even the Admiralty thought that it had concealed its identity with Austrian and Italian naval enterprise in the Mediterranean. But instead the menace slipped out of the Mediterranean and would have been camping around Point Grey unnoticed had not Windermere or his "high authority" sniffed its whereabouts. But why should the menace ignore Victoria and Esquimalt? What right has it to pass us by and appear off Vancouver? We have never done anything to merit so contemptuous an attitude on the part of Germany's sea lords. We have nothing but kindly wishes for Vancouver, but we are not going to allow our sister metropolises to have that menace all to itself. We will send a protest to the Kaiser about it. However, seriously speaking, we may reassure the public of Victoria who may take any stock in the latest screed from this source. We know Windermere. He is employed by the Montreal Star, which, under the proprietorship of Sir Hugh Graham, is leading the forces in Canada who aim to have this country tied up to a naval policy of permanent contributions to the Admiralty and the adoption of centralism in imperial affairs. The whole scheme reads like the dream of a rarebit fiend. If Canada spends \$25,000,000 on a naval base at Vancouver, the Canadian parliament must so decide, but Windermere tells us that this whole thing has been fixed by the Imperial Defence Committee, which is not responsible to any parliament. The committee has decided and Canada must pay.

Why on earth should a German squadron come to British Columbia? There are no German interests here. Where would its base be established? Is it possible Windermere would have us accommodate the Kaiser by presenting him with Esquimalt? This must be the key to the mystery. Esquimalt does not figure in the Imperial Defence Committee's plans. It is not mentioned once in Windermere's story. Evidently it is to be handed over to Germany for a naval base and the Canadian government, with a generosity unparalleled in history, is going to build a magnificent dock for German warships. The Vancouver Province editorially, however, has found a use for Esquimalt. It is to be a sort of preliminary base, fortified and all that, you know, but the main base, the real article, is to be in Burrard Inlet. But, alas for high strategy! If Esquimalt should be captured by an enemy, it would become the enemy's base of operations against the rest of the Pacific coast. But the Province has no mandate to utilize Esquimalt

## 200 Men's Suits

Made to Sell From  
**\$12.50 to \$22 Go on  
Sale Friday at \$7.50**

THIS is an extraordinary Sale of some 200 Men's Suits that sell in the regular way from \$12.50 to \$22.00. Such an opportunity will not be missed by the man who is in need of a new Fall suit, and at this tempting price no doubt many men will avail themselves of the opportunity of securing an extra suit. Samples are to be seen in the View street windows and they tell their own story of style, material and quality far better than we can tell you here in an advertisement. Included are English and Scotch tweeds and worsteds in a large variety of shades and patterns, and you can choose from single or double-breasted styles, with medium or full-peg pants. Regular \$12.50 to \$22.00 values. Special Friday, per suit

**\$7.50**

## Big Hardware Sale Friday

FULL particulars of the following lines that go on special sale Friday, can be gathered by examining the goods displayed in the Broad street windows. Some of the lines are limited to a few articles only, for this reason early shopping is advisable to save disappointment.

### \$1.00 TABLE LAMPS FOR 65c

The dark winter evenings will soon be here now, and a good Table Lamp is a necessity in many homes. This timely sale will therefore be greatly appreciated. We hear a lot about the tightness of money, this opportunity, then, to save 35c on the \$1.00 is worth an early trip to secure. These Lamps are a reliable make. Made with bronze base and glass reservoir which is so convenient for seeing when and how much to fill. These Lamps give a bright, steady light. Regular \$1.00 values. Friday, each only **65c**.

### SELF-BASTING ROASTERS FOR 35c

These Self-Basting Roasters have become so well known, and have found such favor among cooks and housewives that very little need be said here about them. The chief feature of these Roasters is the fact that they are made with concave bottoms which collect the rich natural meat juices directly under the roast, the heat turns these juices into steam which condenses all over the surface of the meat or fowl and makes a perfect self-basting process. There is no danger of burning as the bottoms are slightly raised from the oven. Needs absolutely no attention. Regular 65c value. Friday special, each **35c**.

**Grey Enamel Dish Pans** in a large size. Regular 50c value. Friday, each **25c**.  
**Drip Pans**, all sizes, and regular values to 30c. Friday, each, any size, for **15c**.  
**Dover Egg Basters**, usual price 15c. Friday, **10c**.  
**Graters**, usual price 15c. Friday, **10c**.  
**Culenders**, usual price 25c. Friday, **15c**.

### A 10c SALE OF WHITE ENAMELWARE

This is a special purchase. Each piece comes in a good quality of white enamel finished with a glaze, and are marked at about one-half the usual price. Included are: Soup Bowls, Round Pudding Basins, Ladles, Plates, Mugs (3 sizes) and Cups, Soup Dishes, Lip Saucepans, Stew Pans (with two handles), Strainers.

See Broad Street Windows.

### \$1.75 GALVANIZED IRON CLOTHES BOILERS FOR \$1.00

This is the lowest price we have been able to offer these Boilers for a very long time, and now we only have a small limited number. As these boilers are usually snapped up quickly at the reduced prices we strongly advise early shopping to save disappointment. Regular \$1.75 value. Friday, each **\$1.00**.

## Two Clean-Up Lines From the Silk Dept. Friday

ONE line represents a few hundred yards only of heavy corded silk, very suitable for dresses or coats. A splendid quality silk and is to be had in colors pale mauve, pale pink, old rose, light brown, moss green, myrtle green, dark mauve, mole grey and slate. Regular value 75c to 1.00. Friday's clearing price, per yard **25c**.

The other line is a few pieces of Beaded Nets. They are all 42 ins. wide and are mostly with black grounds and beads in colors green, gold, coral, white, grey and blue, also blue with gold, red and gold, cream and pink. Regular \$1.00 to \$1.50 values. Friday's clearing price, per yard **50c**.

—Main Floor

## Two Days' Sale of Popular Music

Friday and Saturday at, per Copy, 15c

FRIDAY and Saturday we are having a big clean-up sale in the Music Salon and we are offering a large quantity of popular music at the low price of 15c per copy. Here are a few of the titles: Trail of the Lonesome Pine, Apple Blossom Time in Normandy, Oh, You Silvery Bells, When I Lost You, Little Bunch of Shamrock, Pullman Porters' Parade, Old Girl of Mine, Midnight Choo-Choo, Oh, Loveable Chill, I'll Get You, Sunshine and Roses, Malinda, How Late Can You Stay Out To-night, You Made Me Love You, Melinda Wedding Day, Peg o' My Heart, Floating Down the River.

—First Floor

## Inexpensive Carpets and Curtains—Special Values for Friday

**Tapestry Squares**, 50 only, extra heavy quality, made with one seam down the centre, interwoven borders and combination centres; a large range of designs and colors to select from, suitable for any style of room. Size 3x3 yards. Friday, each **\$7.50**.

**Japanese Squares**, 25 only, made plain on one side and stenciled pattern on the other. The colors are varied as are also the designs. A low-price floor covering which is very serviceable and clean. Friday, each **\$2.75**.

**Velvet Rugs**, 50 only, size 24x48; a large range of designs and colors to select from, rugs that will give splendid service and match almost any carpet. Friday, each **\$1.50**.

**Tapestry Portieres**, 50 pairs of Tapestry Portieres, 36 ins. wide and 2 1/2 yards long, and all reversible, with heavy knotted fringe both top and bottom. The colors are red, green and combination colors. Friday special, per pair **\$2.75**.

**Nottingham Lace Curtains**, 100 pairs, 2 1/2 yards long, finished with lock-stitched edges. A very large range of designs to select from. They come in both white and in cream. Special, per pair, Friday, **75c**.  
**Bungalow Screens**, 500 yards of American Bungalow Screens, 36 ins. wide, all reversible; combination colors, also some with band borders and plain centers. Special, per yard, Friday **25c**.  
**American Silkelines**, 500 yards, all 36 ins. wide, and all reversible. Very dainty in design and colors. Special, per yard, Friday **15c**.

## Your Opportunity to Get a Good Bed Set for Little Money Friday

This set consists of three-pieces, which can be purchased separately if desired, at the prices quoted. Only fifty sets.

**The Bedstead** comes in a good strong make, finished in white enamel and brass rods and knobs. You have your choice from 4 ft. 6 in., 4 ft., and 3 ft. 6 in. sizes. Each, Friday **\$7.75**.  
**Wire Spring Mattress**, a good quality spring, finished with cable cords. A strong, durable spring and in all sizes to fit bed. Friday, each **\$2.50**.

**Art Mattress**, a well-made Mattress, covered in strong art ticking. Will give every satisfaction in wear. Friday, each **\$4.50**.

The Set, complete, for **\$14.75**

—Second Floor

That Toilet Set—A 10-piece printed toilet set for \$2.35 worth \$3.50; 55 sets for \$2.35; 54 sets, \$2, at R. A. Brown & Co.'s, 1302 Douglas St.

Sailors Entertained—The Starboard Watch of S. S. Antiochus gave an interesting concert last night at the Seamen's Institute, corner of Ontario and St. Lawrence streets. A feature of the programme was the skill of the chief cook on the "bones."

Men Still at Nanaimo.—Five of the post office employees are still at Nanaimo with the troops, and no indication has been given of when they will be permitted to return.

New Post Offices Opened.—The following new post offices were opened in the province during the past month: Victoria sub post office No. 11; also at Kemfalia, Bevan and Savory Island.

Permits in Esquimalt.—Building permits to the extent of \$11,400 were issued in Esquimalt last month, making a total of \$205,100 for the year so far.

Eastern Cattle Arrive.—A further shipment of 109 cattle, bought by the livestock commissioner on his recent trip east arrived on the Island yesterday and were installed at the fairgrounds where they will be kept until the auction, the date of which is not yet announced.

Registrar at Fault.—Owing to the failure of the registrar at Vancouver to notify counsel in the case of Baker et al. v. Uplands, Limited, that the court of appeal would sit in vacation to pronounce judgment Mr. Justice Irving has granted leave for an extension of time to enter an appeal to the Supreme Court of Canada.

Fine Exhibits.—The Women's Institute of Oyster district held its first exhibition at Ladysmith at the beginning of the week and the fruit, vegetables and flowers were very highly commented on by the judges. The section devoted to ladies' work was a strong one, especially the crochet work. In addition the poultry exhibit was especially fine.

Correspondence With Lotteries.—The government is holding up all letters and mail addressed to people or firms known to be engaged in lottery business, and these are being returned to the dead letter office, where they are opened, and when the contents are found to be of an innocent character, forwarded to the intended recipients. The amount of correspondence which comes under suspicion in this manner at the post office is astonishing, and numbers sometimes as many as a hundred or more letters daily.

Special Meeting, King's Daughters.—At a special meeting of the local circle of the King's Daughters yesterday afternoon prior to the annual general meeting, the annual report of the president and the treasurer's statement were read, and the election of officers resulted in Mrs. L. H. Hardie being made district secretary, and Miss M. Leitch treasurer. All three circles were well represented. The district secretary has heretofore managed the work of both secretary and treasurer, and the appointment of Miss Leitch as treasurer created a new office.

Start Long Tour.—Proposing to round the world a party of Victoria and Vancouver people left by the Montague this morning. The majority of the party, which consists of eight or nine people, have been under medical care for some time, and are undertaking the trip for the physical benefit it will confer. Dr. Ernest Hall, who is in charge of the party, is himself a convalescent of a few months' time from a major operation, and the other members are also seeking after more rugged health. They include W. Stenland, H. F. Pullen, Mrs. Pullen and children, Victoria; Mr. and Mrs. Hawkins, of Vancouver, and Mrs. (Dr.) W. Moody, also of Vancouver. The party will proceed to Peking, and thence by easy stages via Europe back to British Columbia. It is expected that four or five months will be taken up in the journey. Dr. Hall will leave the party at Marseilles and will take a post-graduate course in a number of the leading hospitals of Europe, intending among other things to make a close study of the electric treatment of cancer.

## TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, October 2, 1888.

A case in the police court this morning in which a man named McLean is charged with stealing a note for \$2,530, shows the extent of the optimum smuggling business carried on between this city and the United States.

Mr. R. G. McConnell, of the Dominion Geological Survey, arrived on Sunday night. Mr. McConnell and party left Victoria early in May, 1887, and proceeded up the Stikine river. Leaving Dense lake about the end of June they ascended the Dense river to the Liard, descending that stream later. They then made extensive journeys through the great lakes and into the Yukon.

The C Battery, R.G.A., paraded at 10 o'clock this morning at Beacon Hill Park for inspection by Major-General Sir Frederick Middleton, C.M.G., commander-in-chief of the Canadian Militia. The major-general went to Esquimalt yesterday and inspected the sites of proposed fortifications, also the new permanent barracks.

Deputy Minister of Marine W. Smith returned on Monday afternoon from Discovery Island. The place is considered dangerous to ships navigating the Straits, and the deputy minister will recommend the placing of a foghorn on the southern portion of the island.

T. G. Shaughnessy, assistant general manager of the C.P.R., and party are on their way to the Coast.

Prominent Washingtonian Here.—J. M. Wilson, a prominent citizen from the American capital is in the city today. Mr. Wilson has been spending some months out of Washington summing up in New England, and professes himself out of touch with affairs round the Capitol. He will stay here for a few days.

Consider Day Nursery.—The necessity of the establishment in Victoria of a day nursery or crèche was discussed at a meeting held on Tuesday afternoon at the Y. W. C. A. at which were representatives of the Social Service Commission, Local Council of Women, Friendly Help Society, Children's Aid Society and the Salvation Army. Rev. Dr. Clay presided. After a lengthy discussion, the meeting adjourned until Tuesday next, in order that fuller information may be secured.

Preparing for Concert.—The first practice for the concert, which will be held early in December, took place last night in the King's Daughters' Rest Room, Courtenay street, and was well attended. The programme of music submitted to the members included Parry's beautiful work, "Best Pair of Sirens," and a selection of charming part songs by Sullivan, Henry Leslie, etc. The rehearsal was under the direction of Douglas Macey, the society's newly-elected conductor. There are vacancies as yet for new members, whether they be sopranos, altos, tenors or basses.

Judges Must Finish.—That no judge might leave a show or receive his money until all protests had been attended to was the decision of the Victoria Poultry and Pet Stock Association at its meeting last evening. The association showed its appreciation of the relations existing between it and the Central Park Association, by placing a vote at the disposal of the latter for its winter show. It was also decided to hold an amateur judging contest at the Victoria show in the second week in January next, on the same lines as those conducted in larger livestock at the recent agricultural show, with a view to educating breeders in the points of birds. Messages of condolence with the families of the late Miss Griffiths, H. McDowell and other members who have recently lost relatives, will be drafted and placed before the next meeting.

### "HEIR TO THE MOORAH" AT THE PRINCESS

No funnier scene can be imagined than in the second act of this play where the miners who have dressed in evening dress to welcome their comrade back from Europe, are each presented with a pair of white gloves and requested to wear them, the spectacle of six men who have never worn gloves in their lives, each struggling in a different way to put them on is good for peals of laughter. Dave Williams as big Bill Ferguson is making a hit, and the large cradle hewn out by the miners, and several strong situations, combined with an excellent dialogue, makes "Heir to the Moorah" a superior attraction.

### "GOOD MORNING, I AM OPPORTUNITY"

Here he is right at your doorstep—lifting his hat politely and asking you to let him in. He is coming to you through the advertising in to-day's TIMES. Will you read the message he has for you? Will you open the door and let him in? It used to be that you always had to seek opportunity—that is not so now. Opportunity is a hustling chap. He is modernized. He uses airplanes and automobiles, telephones and advertising. He wants you to take him in and he frankly says so. Unlike a pretty and diffident Miss he is eager to be embraced. The advertising columns in the daily newspapers are Opportunity's monthly piece. He knows people read newspapers and believe in them. So he chooses the easiest way to reach you. Meet him half way—read the advertising in to-day's TIMES. Opportunity is a guest who pays his way liberally.

### A LINE O' CHEF EACH DAY O' TH' YEAR

By John Kendrick Bangs

### THE REVERSIBLE PROVERBS.

"Be good and you'll be happy."  
"Yes, that's well understood."  
"Be wicked and you'll be miserable."  
"That's other proverb snappy."  
"Be happy and you'll be good!"

Reading Room Open Longer.—From now on during the fall and winter the reading room of the public library will be kept open until 10 p. m. daily, instead of only until 9 a.m. during the summer.

Makes Tennis Racquets.—F. A. Davis, head of the firm which manufactures the well known "Davis" racquet is in the city on a business trip. He is staying at the Empress hotel and will remain on the coast some days.

Visited Plant.—The local acting manager of the British Columbia Electric Railway Company paid a night visit yesterday to the company's plant at Brentwood Bay. He reports everything in perfect condition, and everything working splendidly.

Delayed Departure.—J. J. Shallcross has been detained in England, through the death of a member of the family which occurred while he was there. Mr. Shallcross was to have sailed on September 20, but this unfortunate occurrence has delayed his departure for a few weeks.

Was Miss Powell.—Mrs. Bridgewater (not Miss Bridgewater as previously stated), who composed "The Maori's Dream," was formerly Miss Violet Powell, of this city, and the composition is the first she has brought out since her marriage.

Strathcona Trust.—The local committee of the Strathcona Trust is to meet at the education office, Parliament Buildings, to-morrow, Friday, afternoon. The business to be considered is the same as that set for the adjourned meeting on September 19.

Boys' Department, Y. M. C. A.—Mr. Bisset, who has charge of the boys' department at the Y. M. C. A. has three assistants in the persons of W. Baker, P. Macpherson and H. Stevens, who were elected to the boys' council. The first prayer meeting of the season will be held on Thursday evening, and will be led by A. W. Wilson.

Library Circulation.—For the month just past the Carnegie library reports that 12,469 books were issued, of which number 1,591 were to juveniles. The daily average was a little over 549, and the largest number in one day was 1,091. The juvenile membership has increased to about triple its previous number, and during the month 157 joined. The number of adult members who subscribed their names numbered 409. During the month 483 books were added.

Dickens' Club Elects.—At a meeting of the Dickens' Club last night at the residence of Mrs. Lort, 706 Cook street, the following officers were elected: President, Dr. D. J. J. Hands; vice-president, Mrs. McKim; secretary, J. W. Lethaby; treasurer, Mrs. Lort; secretary, Miss C. Fox. A lecture on the Dickens pilgrims will be given on Saturday evening, October 11, at the Y. W. C. A., by J. W. Lethaby, for which special lantern slides have been sent from England, showing the places mentioned in

## Solve the Piano Problem Correctly

Unless you are thinking of buying a Piano, do not waste time on this advertisement. If you ARE considering the purchase of an instrument, do not miss a word of it. It will be the means of putting you on the right track if you heed it.

Every Piano manufacturer has arguments by which he is going to endeavor to induce you to buy his instrument, if you give him a chance. The average man is not a reliable judge of Piano values. He is apt to be carried away with selling points that really have small weight in the final analysis.

## Genuine Gerhard Heintzman Pianos

Have long been famous as the BEST Pianos made in Canada. They have held that reputation for almost fifty years, and their supremacy to-day in conservatories and public institutions, in the musicrooms of the wealthy, and in the parlors of the wage-earners, from Charlottetown to Port Alberni, testifies to their lasting quality.

Gerhard Heintzman Pianos are made to a high standard, a standard set almost half a century ago, and held to unwaveringly. They have a fine, ringing, lasting tone that does not weaken after years of hard service. They are encased in hand-somely-designed cases in a variety of woods. They cost no more than many inferior Pianos, and they are sold by us on easy terms.

We earnestly advise all who are buying Pianos to do themselves and us the justice of a visit to our showrooms BEFORE closing for ANY make of Piano. It costs nothing to make sure that you have the RIGHT instrument. Whether you buy or not, you are welcome.

### NAVIGABLE WATER PROTECTION ACT.

NOTICE is hereby given that A. O. P. Francis, of the City of Vancouver, B. C., and Thomas Hope Leeming, David Leeming and John Leeming, of the City of Victoria, B. C., have deposited with the Registrar of the City of Victoria, B. C., a plan and description of the works proposed to be constructed in Victoria Harbor, Upper Basin, Victoria, B. C., being land situated, lying and being in the City of Victoria, aforesaid, and known, numbered and described as Lots Seventeen (17) and Eighteen (18), Block "L," Harbor Estate, Map No. 16, and have deposited the area and site plan of the proposed works at the Registrar of the City of Victoria, B. C., and that the matter will be proceeded with at the expiration of one month from the time of the first publication of this notice in the Canada Gazette.

Dated this 16th day of September, 1913.  
A. O. P. FRANCIS, THOMAS HOPE  
LEEMING, DAVID LEEMING and  
JOHN LEEMING.  
By their Solicitor, Sydney Child, Suite 204,  
Hilbert-Boss Block, Victoria, B. C.

### "LAND REGISTRY ACT."

To Charles L. Costello Assessed Owner of Lot 4 of Sections 28 and 69, Map 249, Victoria District.

TAKE NOTICE that an application has been made to register Charles Newcomb as the owner in fee simple of the above lot under a Tax Sale Deed from the Assessor of the District of Victoria to him, dated the 13th day of January, 1909, and you are required to contest the claim of the Tax Purchaser (if you think fit so do) within 30 days from the first publication hereof.

Dated at Land Registry Office, Victoria, British Columbia, this 26th day of September, 1913.

S. Y. WOOTTON,  
Registrar General.

### RED-HAIRED GIRLS.

Some interesting facts concerning red-haired people have been given to the world recently by Monsieur Girouard, a French scientist. It seems that for many hundreds of years no one has ever been able to explain why a girl who has red hair is so sure to be popular with her men friends, why she is never a wallflower at a dance, and almost sure of a seat in the car or why men are so persistently gallant to a red-haired girl and find her on the whole so intensely alluring. M. Girouard has explained this apparent enigma in several ways.

He claims that, first, red hair is generally accompanied by certain qualities which make a woman extremely attractive. She has soft, smooth skin, for instance, though this is sometimes freckled. Then the finest of complexions are often found on red-haired girls, and these sun-kissed girls have blood that is warmer and flows more swiftly than that in the veins of their supposedly less favored sisters.

## PLAN TO ENCOURAGE AUSTRALIAN TRADE

Commonwealth. Appoints Interstate Commission to Control Transportation, Etc.

The Australian exchanges just to hand announce the appointment of the Interstate Commission, of three members, Hon. A. B. Piddington, chairman, George Swinburne, M. L. A., and Comptroller of Customs Lockyer, a tariff authority. The appointments are to be for a period of seven years, and the commissioners will, on the expiration of that term, be eligible for reappointment. In the case of illness, suspension, or absence of a commissioner, the governor-general will be required to nominate a person to act as deputy commissioner in the interim, and the officer temporarily appointed will possess all the powers of the permanent commissioner whose place he takes. His Excellency also possesses the right of designating the chief commissioner, and similarly in the case of illness or other emergency, he must appoint one of the other commissioners to take the place of the chief.

The salaries. In addition to the salaries of £2,500 and £2,000 per annum laid down under the act, special travelling allowances are to be granted to each of the commissioners. Two will form a majority, and they will have all the powers of a full commission. The decision of the majority in all cases will prevail, but if only two commissioners are present, they cannot agree upon any matter, the final decision must be postponed until the full commission has assembled. None of the commissioners is to be interested in any business having relation to what is known as a "common carrier," and they are not to be allowed to participate in profit, benefit, or emolument arising from anything of the kind.

Their Duties. Special provision is made for the commission making investigation into all matters which, in the opinion of its members, ought to be inquired into as they affect the following matters:

- (a) The production of, and trade in, commodities.
  - (b) The encouragement, improvement and extension of Australian industries and manufactures.
  - (c) Markets outside Australia, and the opening up of external trade generally.
  - (d) The effects and operation of any tariff act or other legislation of the Commonwealth in its regard to revenue, Australian manufactures and industry and trade generally.
  - (e) Prices of commodities.
  - (f) Profits of trade and manufactures.
  - (g) Wages and social and industrial conditions.
  - (h) Labor employment and unemployment.
  - (i) Bounties paid by foreign countries to encourage shipping or export trade.
  - (j) Immigration.
  - (k) Other matters referred to the commission by either House of Parliament by resolution for investigation.
- River questions will also be inquired into, and in this connection the commission may investigate all matters affecting:
- (a) The extent of diversion, or proposed diversions or works, or proposed works for diversions from any river or its tributaries, and their effect, or probable effect, on the navigability of rivers that by themselves, or by their connection with other waters, constitute highways for interstate trade and commerce.
  - (b) The maintenance and the improvement of the navigability of such rivers.
  - (c) The abridgement by the Commonwealth by any law or regulation of the commerce of the rights of any state, or the residents therein, to the reasonable use of the waters of rivers for conservation or irrigation.
  - (d) The violation by any state, or by the people of any state, or the people of any other state, or the people of any other state, with respect to the waters of rivers.

### STAINED GLASS WINDOWS.

Development in the Art Makes it Possible to See Designs at Night.

An interesting invention, which may have far-reaching effects upon the development of the manufacture of stained glass windows for churches, has recently been made by Messrs. Kayll and Reed, of Leeds, and is now in the process of being patented.

The picture in an ordinary stained glass window can only be seen from the inside of the church by daylight, but this invention renders it possible for the picture to be seen after dark when no light is shining through it from outside the building.

That result is obtained by painting the picture upon a substance which is translucent—so allowing the light from outside to pass through giving the ordinary appearance of stained glass—but which, at the same time, will reflect light from the interior, when artificial light is in use for evening service, thus displaying the picture to those in the church when there is no light outside. At the same time this power of reflection in no way spoils the beauty of the picture, considered as a stained glass window.

The first window made which has this great advantage of being visible by artificial light has been placed in the Church of the Sacred Heart, Halifax, England. This was a small window, however, and three larger ones have been completed, which will be placed shortly in St. Joseph's church, Bolton.

Norway's population is the smallest in Europe, compared with her area. Each of her inhabitants could have forty acres of land, while the Briton would have to be content with less than an acre.

## TWO TORONTO KNIGHTS

Sir Donald Mann and Sir Edmund Osler at the Woodbine races. Sir Donald is probably asking Sir Edmund to explain the latter's views on civic and corporation extravagance, as given to the Victoria Times, or it may be the two knights are talking about another knight's unexplained mission to London.

## THE LATE W. T. STEAD AND CECIL RHODES

Great Imperialist and Journalist Were Fast Friends; Biography Published

One of the most remarkable books of the autumn will be published by Mr. Heinemann this month. It is Miss Estelle Stead's life of her father, Mr. W. T. Stead, the title of which will be "My Father: Personal and Spiritual Reminiscences."

"Miss Stead," Mr. Heinemann said in an interview with a representative of the Pall Mall Gazette, "has sketched the life of her father, and has given her own personal impressions of him, especially from the point of view of his experiences in spiritualism, and she shows that spiritualism was indeed spiritual to him."

"There is comparatively little about many personal friendships, but a great deal about some. For example, Mr. Stead's relations with Mr. Cecil Rhodes are fully set forth, and there is the coming together with Carlyle and with Gladstone."

"Mr. Stead was to have had the disposal of Mr. Rhodes's fortune on the lines which Mr. Rhodes himself laid down. When, however, the South African war broke out Mr. Stead was violently opposed to Mr. Rhodes's policy, and Mr. Rhodes appointed other trustees."

Mr. Rhodes's Devotion. Mr. Rhodes, nevertheless, never ceased to be devoted to him, as the 'Reminiscences' show in the following words recalled by Mr. Stead:

"Apart from the success or failure of political projects, I have the satisfaction of remembering the words which Mr. Rhodes spoke in April, 1900, when the war was at its height."

"Taking my hand in both of his with a tenderness quite unusual to him, he said to me, 'Now I want you to understand that if in future you should unfortunately feel yourself compelled to attack me personally as vehemently as you have attacked my policy in the war, it will make no difference to our friendship. I am too grateful to you for all I have learned from you to allow anything that you may write or say to make any change in our relations.'"

"The book also deals, amongst other subjects," Mr. Heinemann went on to say, "with the 'Maiden Tribute' and Mr. Stead's imprisonment, his peace missions to the Tsar and others, and his arbitration campaign, including his visit to the Sultan."

"On the spiritual side it recalls his first seance, his experiences with Julia and the Borderland, automatic writings, photographs of the invisible, and the foundation of Julia's Bureau."

"All I Told You is True."

"Then comes Miss Stead's story of the scene on the Titanic, and the following are the last sentences of all: Three weeks after his passing he came to the upper room in the inner sanctuary of Julia's Bureau."

In that room where he had himself so often spoken of the life to come and conversed with those who had already passed onward he—the Beloved Chief—came and spoke to those who prayed and waited, knowing he would come.

Clearly he showed his face that all might see; and as it faded into darkness his voice rang through the room, and he spoke, saying: "All I told you is true!"

Statistics by the German and Swiss Alpine Clubs show that 123 climbers were killed and 514 injured in the Alps during 1912. As usual, the majority of the victims were Germans, for the reason probably that the Teuton climbers usually descend with the services of guides, partly through economy and partly through pride.

## PROPOSE NEW CONVENTION

Japanese May Participate in Panama Exposition if Land Question is Settled.

The Nichi Nichi is authority, say exchanges to hand from Japan, for the report that the Japanese government, with a view to settling the California question and at the same time eradicating the defects in the present Japanese-American treaty, intends to conclude a new convention with the object of perpetuating friendship between the two nations, and recently instructed Viscount Chinda, Japanese ambassador at Washington, to draw up a draft of the text. The draft has already been received from the ambassador and, after study, has been approved by the foreign department. As a result negotiations have been inaugurated between the authorities concerned.

It is stated that, inasmuch as Mr. Guthrie, American ambassador in Tokyo, is enthusiastically endeavoring to promote the passage of the new treaty, a settlement will be arrived at by the middle of this month. Details of the convention are being kept secret, but it is stated that it provides for the protection of the permanent interests regarding the land-ownership right of Japanese residents in all states of America. Nothing can be done in connection with the California question now that the law has already been enforced, but the loss to Japanese land-owners will to some extent be alleviated by compensation for damage.

The Japanese government is not absolutely disinclined to participate in the San Francisco exposition, but in view of the opposition raised by the people in relation to the California question it will not again publicly express its intention to participate until the new convention is concluded.

## A SULZER ELECTION STORY.

Governor Sulzer, of New York, who seems to be the storm centre of a politico-civic campaign at present raging there, is the hero (or otherwise) of a quaint election story a correspondent has brought with him from the other side (says the Glasgow News).

A political meeting in the last campaign in New York was seriously disturbed by a man who kept yelling for Sulzer. "We want Sulzer, we want Sulzer," he bellowed, much to the annoyance of everybody.

The chairman pointed an admonitory finger at the interrupter, and asked him to gag himself for a moment; but he refused to hush; and finally they threw him out.

The man went round the building and entered by another door. By this time Sulzer had begun a speech. But the man who had been ejected only yelled with greater vehemence than ever. "Let Sulzer speak. We want Sulzer!" Smothering his annoyance, the chairman arose.

"My friend," said he, waving one hand at the interrupter and the other at Governor Sulzer as a sign to pause, "if you were really a friend of Mr. Sulzer you would know that it is he who is speaking now."

"Aw, that ain't Sulzer," replied the unabashed supporter in a stentorian voice. "That's the fella that paid me to yell for Sulzer."

## BAPTISM RECORD.

A revivalist went on board one of the ships of the line to confer with the admiral, says the Shipping World, and the following conversation ensued:

"I've called to see you, sir, about the state of religion in the fleet. We have had a glorious awakening in the Arcthusa, the crack ship, and I want to interest your men in the subject of their everlasting welfare."

"Ah!"

"Yes, sir, we baptised ten men in the Arcthusa yesterday."

"The deuce you did! Here, captain—order out twenty men for baptism first thing to-morrow morning. I'll be hanged if I'll be beat by any Arcthusa in this service!"

## CANADA AS A PIVOT FOR WORLD'S PEACE

Swedish Advocate of International Good Will Makes Interesting Suggestion

"Your young nation is still in its early prime. The enterprising activities of the Canadian people are reflected in the prominent statesmen who lead both parties. Would it not be possible for them to forget the minor differences which divide Liberals and Conservatives, and make a big national effort to bring about that complete understanding between the United States and the British Empire which alone, and in measurable time, would effect disarmament and incidentally free many millions of European money for the development of Canadian soil from Halifax to Vancouver?"

Thus spoke Mr. August Schvan who was in Ottawa recently on a peace mission, having already interviewed several of our public men on the subject and arranging interviews with others. Mr. Schvan is a Swedish subject, and in addition to serving in the army of his native country also served for a time in the German and Austrian armies. He has also had some official experience as private secretary to the minister of foreign affairs at Stockholm. After visiting London he has come to Canada.

Mr. Schvan is strong in advocacy of an arrangement between the British Empire and the United States whereby the navy of the republic would dominate the Pacific and prevent any overseas attack on the United States, Canada, Australia or New Zealand. The British fleet could then be free to police the Atlantic.

The effect on Europe, he believes, would be so great that the criminal waste on armaments would cease and reductions follow. Britain would free herself from European entanglements and enforce the peace of the high seas. Undisturbed communications on the high seas would be to the advantage of the whole of mankind.

"Thus the national policy for the Anglo-Saxon world would for the first time obtain the only foundation which can secure it for the future. It would be based on international necessity and thus made secure for all time to come."

## THE MEN OF THE SCARLET COAT.

Superintendent Demers of the R. N. W. M. P. at Churchill, reporting on the death of Explorers Radford and Street, says that the patrol which will search for the murderers may have to stay out a year, and perhaps two years.

The lot of the policeman in the northern wilds is no sinecure. But they are a brave lot, the kind of men that make a public swell with admiration.

## AIR LIFE-BOATS.

Some Sensational Experiments by W. Bleriot, Famous French Aviator.

Writing in the Daily Mail, M. Louis Bleriot, the famous aviator, in regard to "Safety in the Air," says this must be furthered by proper designs.

This is surely the most important point, and probably more than anyone else, I have worked for it and even given up to a large extent the glories of speed races and long-distance records to study this part of the problem of aviation more seriously.

To me this problem of safety in the air is of greater magnitude than it seems to many people, and I see it also in a rather different light. I do not believe in automatic stability as a condition of safety, and I am supported in this view by the great majority of my colleagues among the pilots. I do not think that any accident could have been avoided by that stability.

Air Liners and Air Waves. A very bad gust of wind could always turn an aeroplane upside down in the air, whatever its automatic stability or the strength and power of its controls, just as a ground swell will upset a boat of proved stability. Even the birds are sometimes upset by strong winds, and yet they can minimize the risk where we cannot by folding their wings and presenting a very small surface to their upsetting.

We have to face the aerial waves with our small crafts, and we must look to what takes place on the more visible waves of the sea. We have not yet in aviation those great ships of enormous size that will pass unaffected in a rough sea; and who will tell us of what proportions are the aerial waves? Probably such that they pass our imagination, so that we have to face, with comparatively very small crafts, the gigantic and invisible waves of the air.

Aerial Life-boats. Continuing, he says there exists on the sea a craft that is unsinkable, and that no wave will upset—the life-boat. This should also be our aim in the air.

We must make a machine impossible to upset, and if we cannot make it unsinkable we can provide our pilots with "safety belts" in the shape of individual parachutes. This result is certainly more difficult to attain, but it is the only one really useful.

## Somersaulting Aeroplanes.

I hope to make some experiments very soon just as sensational and much less dangerous than those that have just been made. When it is proved that a good machine should be able to turn completely in the air, fly on its back, and come back to its normal position at the pilot's will, it seems to me that a considerable advance to wards safety will have been made.

This, of course, as I said before, should not stop the study of the parachute. From the new flying machine it will be possible to let go from positions that seem now to us impossible to realize, some animals with parachutes adapted to their body, or even men if they really wish to attempt it.

## CIVIC NOTICE.

Re Municipal Election, 1914.

The attention of persons desiring to qualify as "HOUSEHOLDERS," or "HOLDERS OF TRADE LICENSES," to vote at the Municipal Election to be held on the 2nd Thursday of January, 1914, is drawn to Section 5 of the "Municipal Elections Act," which provides that "in the case of the holder of a Trade License, or in the case of a Householder, he, or she, shall during the month of October in each year, make and cause to be delivered to the Clerk of the Municipality, a Statutory Declaration made and subscribed before a Supreme or County Court Judge, Stipendiary or Police Magistrate, Commissioner for taking affidavits in the Supreme Court, Justice of the Peace, or Notary Public, or Municipal Clerk, in form, and to the effect of Form 1 in the schedule of the said Act in the case of the holder of a trade license, and of Form 2 in said schedule in the case of a householder."

"HOUSEHOLDER" shall extend to and include any person of the full age of 21 years who occupies a dwelling, tenement, hotel or boarding house, who has been a resident in the Municipality from the first day of January of the current year, and who shall, unless exempted by the provisions of the proviso at the end of sub-section (4) of Section 48 of the Municipal Elections Act, exhibit certified official military and persons over the age of 60 years from paying road tax) have paid directly to the Municipality all rates, taxes or assessments, which are not chargeable on land, which rates, taxes or assessments so paid shall amount to not less than two dollars, due to the municipality for the current year, other than water rates or taxes, or license fees for dogs.

Section 9 of said Act further provides that "no declaration shall be accepted by the Clerk of a City Municipality unless it be delivered within 48 hours after it is made."

Section 5 further provides that "no person who is not a British subject shall have his name placed upon any Municipal list of voters, nor shall such persons be allowed to vote at any municipal election in this Province."

Section 4 also states that No Chinese, Japanese, or other Asiatics or Indians, shall be entitled to vote at any Municipal election for the election of Mayor or Alderman.

Form of declaration may be obtained and the necessary declarations made at the office of the City Assessor, second floor, City Hall, Douglas Street.

"WELLINGTON J. DOWLER, C. M. C."

Victoria, B. C., Sept. 30, 1913.

## TENDERS FOR FIBRE CONDUIT.

Sealed tenders will be received up to 4 P. M. on Monday, October 6th, 1913, for 10,000 feet of 3-inch Fibre Conduit. Specifications may be seen at the office of the City Purchasing Agent, to whom all tenders must be addressed, and marked on outside of envelope "Tenders for Fibre Conduit." A deposit in cash or a marked cheque made payable to the City Corporation for \$-per cent. of the amount of the tender, must accompany each tender. The lowest or any tender not necessarily accepted.

W. GALT,  
Purchasing Agent.  
Victoria, B. C., Sept. 24th, 1913.

# Rugs From the Orient Personally Selected

You will find no culls among these choice Rugs, although we offer them for today and Friday at these wonderfully low prices.

## RUG LOVERS WILL JUMP AT THESE PRICES

Just a few individual specimens selected at random from our stock of over 400 genuine Oriental Rugs.

## THREE WINNERS FOR O'BRIEN FAVORITES HAD POOR TIME YESTERDAY

### New Fraser Course Proved Success on First Day; Jam- ming at Break Eliminated

Jockey O'Brien piloted three winners at the Willows track yesterday afternoon and went far into the lead as the best rider at the local meet. O'Brien had the mount on Pontefract in the second race, bringing this gelding in at six to one. He also won with Retente in the very next race at even money and then went out and scored the big win of the afternoon with Swede Sam, this proving the longest shot of the afternoon, the mutuels paying off at the rate of \$24.00. Jockey Claver was next with one first, two seconds and a third, while Pickens and Cavanaugh also rode well. It was a grand day for the outsiders. There were seven races on the card, the management refusing to stage the eighth race because of the backwardness of the horse-owners in entering their animals. In this regard a notice has been sent out to the different stables that more entries must be received or something will drop.

#### Jaurez Race Meet.

It was the first day upon which the new Fraser course was tried, and everything worked like a charm. The new course is 165 feet short of the five furlongs, but the owners are pleased with it because it eliminates all jamming in the break from the barrier in the short races. The field have the width of the track to get placed in and the racing is much more satisfactory as a result. There were no accidents yesterday afternoon, though Joe Frank, in the third race started a little trouble by standing in the middle of the track and refusing to be budged.

It was announced that special rates were being prepared at the track for the removal of all horse-owners who wish to send their stables to Jaurez, Mexico, at the conclusion of the local meet, and in a statement made by Col. M. J. Winn, at Chicago, the manager of the Jaurez Jockey Club says that the meeting will start on November 27 and continue for one hundred days without interruption. The best stables in the United States and Canada have applied for accommodation and the class of the horses at the Victoria meet will undoubtedly be sent to the Mexico track.

#### Hal Worth's Easy Victory.

Hal Worth shot to the front from an outside position in the first race, and with Hill holding a nice lead it was a stern chase for the field. Calls made an effort in the stretch, but could not get up, while Gaiety Girl outstripped Ernest H. in the stretch. Prince Winter was a big favorite in the second, with Vireo and Pontefract outsiders. This pair made all the running, Pontefract winning by five lengths, with Prince Winter a bang-up third. O'Brien had the mount on Retente, the public choice, in the third, and he had a clinch, winning by seven lengths, with Nina Muchacho, an outsider, second, and Joe Frank third. Delmas failed to stick the route. Safranor was the good thing in the fourth race, but Sallie O'Day, with Battiste in the saddle, made a show of the field, galloping all the way in front. Lillian Ray won place money in a drive from the fav-

orite, with Moller two lengths in the rear.  
Swede Sam a Surprise.  
Another outsider scored when Kid Nelson went to the front at the half and won by a length from the split favorites, Palatable and Marsand. Ancestors was another good tip that failed to deliver, while Marsand tired badly rounding the turn into the stretch. The big surprise of the day was Swede Sam's victory over such a field as Cool, Mary Emily, Gaty Pallen, Phillistina and Jewel of Asia. The favorites were never in the running. Swede Sam lying in second right up to the stretch, where he broke into the lead to win alone. Gaty Pallen hung in the final furlong and secured third money. Shawnee and Binocular were the favorites for the final, which went to Stoneman, with Claver up. The latter sent the Morgan entry into the lead from the start and just managed to stall off Shawnee's rush in the stretch. The latter was left at the post and ran a remarkable race.

### PADDOCK PATTERN

Perfect weather again greeted the ponies.

Shawnee ran a grand race in the final of the day, but could not make up the lost ground.

Jockey Pauley, the star of the Montana tracks, arrived yesterday for the meet.

Taylor has been indefinitely suspended and will not ride again at the Victoria meeting.

That voting contest for the most popular jockey in the capital promises to rival even the mayoralty contest.

Hand-riding Kelly is coming more into favor with the owners and was up on two mounts yesterday.

Swede Sam scored his fourth straight win yesterday, while Mary Emily was beaten in this event.

The Country Club officials have instructed the owners that more entries must come in or the programme will be cut down.

O'Brien and Hill are the leading jockeys of the meet, with Claver close on their heels.

Hal Worth's race in the opener was the first over the new Fraser course, which made a big hit with the horsemen.

Battiste, a colored rider, on Sallie O'Day, sent over the real sure thing of the afternoon.

### PLAYERS TO WRITE.

Washington, Oct. 2.—Connie Mack, manager of the Athletics, in a statement here declared he would not prevent two of his players, Baker and Collins, from writing special newspaper articles on the world's series against which a ruling was recently issued by the National Baseball commission.

## INTER-CITY GAME FOR THE HOLIDAY

### All-Star Elevens to Meet on Thanksgiving Day; Satur- day's Games and Officials

An inter-city soccer match between Victoria and Vancouver is now proposed for Thanksgiving Day and negotiations are in progress. At last night's weekly meeting of the Victoria and District Football Association, Secretary Jack Youson was instructed to write to the Terminal City league and secure information upon the proposed contest. An all-star mainland team will play at the 'Frisco Portola sports this month and the idea is to have this team come here on its way home. Seattle is the alternative in the matter should the Terminals refuse to come here.

Whittaker was awarded to the Wards, though it was shown that this player had signed two certificates.

For this breach of the rules he will be suspended for two games. The North Ward Intermediates were awarded the money which they should have had last year for capturing the second division title, and this they will use for the purchase of new uniforms.

Grounds and referees for Saturday's games were assigned as follows:

Senior.

Rangers vs. J. B. A. A. Royal Athletic park. Referee, H. A. Goward.

Wards vs. Sons of England, North Ward park. Referee, J. R. Allen.

Thistles vs. V. W. A. A. Beacon Hill. Referee, Mr. Hallas.

Intermediate.

Wests vs. Wards, Macaulay Point. Referee, Mr. Hurren. Empire vs. Men's Own, Beacon Hill. Referee, Mr. Saul.

Empire vs. Pandoras, Macdonald's field. Referee, Mr. Hartley.

All games will start at 3 o'clock. The league would like to hear from many old players capable of refereeing, the available arbiters being inconveniently few.

Anyone willing to act is asked to notify Secretary Youson at the Bakeries.

North Ward Team.

The North Ward senior team was yesterday selected as follows: Goal, Baines; backs, Newland and Taylor; halves, Davidson, Thomas and Brown; forwards, Wilkie, Nichol, Pearson, Muir and Allen. Reserve, T. Peden.

Men's Own Team.

The Men's Own team is as follows: Goal (capt.), Wiseman, Sherrett, Chirch, Middleton, B. Lea, S. Ferris, Armstrong, Daniels, Wright, Church, Reserves, Norman, A. Lea and Cull.

Pandoras.

The Pandora team for Saturday's soccer: Goal, J. Porter; backs, D. Muir, S. Fisher; half-backs, I. Day, F. Berry, E. Liffon; forwards, J. McWilliam, G. Liffon, J. Cook, C. McMillan, R. Richards. Reserves: A. Day, B. Ancombe, T. Muir, W. Muir. All players are requested to be on the ground at 2.30 sharp.

Sons of England.

It is now said that the Sons of England side will not be for the purpose of raising funds for the football team, but merely to bring the players together. The S. O. E. lodges always support their soccer club in all financial matters.

Rangers.

At a meeting last night the Rangers (formerly Hibernians) elected the following officers for the season: President, W. Miller; vice-president, H. Fortin; treasurer, D. Randall; secretary, A. M. McAlay; delegate, 186.

League, C. Costello; trainer, R. Smith. Practices will be held by the club at the Royal Athletic grounds every Tuesday and Thursday. The team for Saturday will be picked to-morrow evening after practice.

### THREE STRAIGHT FOR THE IRONWORKERS

Three straight was the sweep that the Woodcutters achieved against the Ironworkers in last night's city league bowling matches.

B. C. Telephone play The Colonist Printers to-night.

Ironworkers.

Players	1	2	3

Totals	679	701	750
Total pins—2130.			
Team average—142.			

SUPPORTS AUTHORS.

Baseball players who write articles for newspapers on the coming world's series will have the support of the Baseball Players' Fraternity. It has been announced by David T. Pultz, president of the organization. Pultz made a statement regarding the rule laid down by the national commission prohibiting players of the competing teams from writing on the championship games or allowing their names to be signed to articles written.

## ALL-STARS TAKE THE THIRD CONTEST

Grindle Will Winter Here; Dope on the Coming World's Series Next Week

Harry Meek again led his All-Stars to victory yesterday, it being their third consecutive win against the Vancouver champions of the Northwestern League. Kelly was in grand form and kept the Beavers hits well scattered, while Clark was grounded hard in the first three innings. The champion fielded poorly and were outclassed by the hand-picked aggregation. Score: Vancouver..... 8 1 1 All-Stars..... 4 13 4 Batteries—Clark and Grindle; Kelly and Meek.

Pinky Grindle, a member of Bob Brown's champion Beavers, will spend the winter here as a clerk in Two Jacks' cigar emporium, while it is also rumored that Erv Kautleiner will accept a like position in the Capital. Pinky has been catching grand ball for Brown during the past two months and has the unique record of having worn four different uniforms this year. He started with Victoria, went to Tacoma, was released to Spokane and then handed to Vancouver, going from the tail-enders to the champions.

Taking the batting averages of September 21 as a working basis, the Athletics are better hitters than the Giants, but are not so successful in stealing bases. The team average for Connie Mack's men a batting average of .281, with 721 runs and 192 stolen bases in 138 games. The Giants hit for .268, scored 608 runs and stole 258 bases in 135 games. The averages of the regulars who will be in the game, outside of the pitchers, who are not figured in the offensive end of the game, follow:

Athletics.	W.	L.	Pct.
Collins, 2b.....	24	15	.615
McInnis, 1b.....	32	19	.625
Baker, 3b.....	32	19	.625
Strunk, 1f.....	30	16	.652

## JACK WHITE NOW AFTER JOE BAYLEY

Eastern Lightweight Would Like to Meet Former Canadian Champion

Looking for a bout with Joe Bayley, Jack White, the Chicago lightweight, arrived in Victoria last night and will remain in the capital for a few days. He is accompanied by his manager, Frank Hazel, and the pair are keen on getting a battle with the former Canadian title-holder, if a suitable arena can be found. They are now negotiating with the owners of the Bridge House Arena, but it is stated that this is closed down for the winter, and their only hope is that a permit can be obtained on the Island. White is one of the smallest boys in the lightweight division, and has been fighting with great success in California, though he was beaten by Johnny Dundee in 20 rounds.

After Frenchie Vaise.

Morris Condon, manager of Joe Bayley, is still after Frenchie Vaise, and has offered to back Bayley for \$5,000, winner to take all of the receipts, if the Benton boy will give Bayley another chance. It is possible that the pair will be matched in Seattle early next month over the four-round route. Bayley is anxious to get started again and says that he is now in the best condition of his life. This fellow White has a grand record, and is one of the real top notchers. He is not quite as stockily built as Bayley, but is built on the speed lines of Johnny Kilbane, with whom he has fought no less than four times.

Has Fine Record.

White has beaten such men as Patky Kilne, Tommy Breenahan, Patrick Conley, Owne Moran and a score of other notchers. He has met featherweight champion Johnny Kilbane four times, thrice securing draws and on the other occasion losing a close decision to the champion in 15 rounds. He also fought a 15-round draw with Abe Altell, when the little Hebrew was champion. White, whose correct name is Jack Anderson, was born in Liverpool, Eng., being of Jewish descent. He is 23 years old.

## AMATEUR STAR IS BOOKED FOR TERMINALS

Already the dragnet of the Patrick Brothers is producing results, and the announcement came over the wire from the east last night that Cooper Smeaton, the speedy Westmont amateur, had succumbed to the call of the coast and was arranging his business affairs to permit him to spend the winter in Vancouver. Smeaton will play on the Terminal City seven.

Perry Leneuer, captain of the Ottawa Hockey Club, who was the first to sign a contract for the season of 1914, says that in his opinion the new hockey commission will not only prove a great success but that it will work great benefits for the east and west and be the means of saving professional hockey.

Frank Patrick, manager of the Vancouver hockey team, intends lining up the best man in the business to guard the nets for the Terminal City team in the Coast series during the coming season. Allan Parr, goalkeeper of the team for the past two seasons, will be a candidate for the goalkeeping job again this year. Two players who will come west for a trial are "Chuck" Clark, the star of the Calgary amateurs, who ranks as one of the best goalkeepers in the west, and Parker, a former goalkeeper of the Toronto Varsity team.

## VISITORS STILL WINNING MATCHES

Montreal, Oct. 2.—Continuing their success in the championship golf tournament on the links of the Royal Montreal Golf Club, the English and American players found little difficulty in disposing of their Canadian opponents in the second round yesterday. The playing of the second round saw the elimination of the majority of the Canadians from championship honors. The greatest surprise of the tournament was the playing of Miss MacKenzie, of Mississauga, against Mrs. Barlow, of Philadelphia, the American lady champion. This is Miss MacKenzie's first effort in a championship match and she held her opponent almost even until the 16th hole was reached, finally being beaten three up and two to play.

Miss Ravenscroft, of England, experienced little difficulty in defeating Miss Green, of the Royal Montreal Club, winning by 8 up and 7 to play. Miss Bell, of Woodstock, Ontario, was defeated by Miss Footley, who excelled in both the long and short game.

Miss Anderson defeated Miss Scott, Hamilton, by 3 up and 2 to play. Mrs. Kidd, of Ottawa, was eliminated from the competition through her defeat by Miss Dodd, the English open champion, by 7 up and 5 to play.

Miss Harvey, of Hamilton, defeated Miss Hall, of Little Metis, in an easy manner by 8 up and 6 to play.

The remaining matches were all won easily, the majority of them ending on the twelfth green.

## AUSTRALIANS NOT IN NEED OF FUNDS

Describing as silly, the eastern story to the effect that they were in need of funds, the main party of the Australian cricketers left last night on the Marama for their homes in the Antipodes. Messrs. Campbell and Benjamin departed for New York on Sunday evening, and Mr. Arnett and Dr. Pope will take the train from Seattle for San Francisco to-day. Mr. Macartney will remain over until the next Australian boat sails.

## DAILY RACING NEWS FORM CHART

(Compiled by F. Clark. Published by Daily Racing News Form Chart Publishing Co., 51-55 First Street, San Francisco, Cal.)

VICTORIA, B. C., Wednesday, October 1, 1913. 10th day. Weather clear. Track fast. A. J. McElhannon, Presiding Judge. Edward Trice, Starter.

Lambertia	109
High Range	117
Oswald B.	109
Elgin	109
James Blackstock	104
Toma G.	107
Tallow Dip	104

\*Five lbs. approximate allowance.

## CANTILEVER THE WINNER.

Newmarket, Eng., Oct. 2.—The Jockey Club stakes of 10,000 sovereigns, run over the last mile and three-quarters of the Cesarewitch course, was won to-day by Lord Harewood's 3-year-old colt Cantilever, by Bridge of Canny—Lighthead, who started at six to one. The favorite, August Belmont's Tracery, six to four, was second, and Mr. Fairlie's Aleppo, four to one, third.

## CHESS CONGRESS.

New York, Oct. 2.—J. R. Capablanca, the Cuban chess champion, left to-day on the Kaiserin Augusta Victoria for St. Petersburg via London and Paris, to fill his post as chancellor to the Cuban consulate in Russia. On his way from London to St. Petersburg he will meet some of the chess masters who are to participate in the international chess congress at Havana.

Phoenix Beer, \$1.50 per doz. qts.

## REMARKED ON THE SIDE

### Where Will the Baseball Commission Stop?

Not content with stopping the major league ball players from playing basketball during the winter months, the exars of the diamond are now after the ball players who have in the past made a few hundred through writing or giving their opinions on the different games. They have passed a rule prohibiting ball players from writing or expressing an opinion on the world's series. It may be that the commission are protecting the sporting writers in this respect but surely they are taking a great deal of liberty from the men when they say that the players cannot earn a little money outside of their direct contract with the clubs. Too much legislation has killed many a well-intended reform and with the news that Connie Mack intends to let his players write for their papers, it will be interesting to see what action Ben Johnson will take. If the manager sanctions such a step, the players cannot be blamed and the American League magnate knows too well that he dare not trifle with the manager of the Athletics. Dave Fulton, president of the Players' Fraternity, says that his association will back the player writers and a struggle may be looked for during next week's series.

### Rugby Changes Introduced in California.

In that Sunny State where they sometimes create international problems by their treatment of the Japs, they are also stirring up not a little strife over Rugby. Capt. Schaeffer of the University of California announces that in the future his club will only line up with fourteen men, contending that the reduced number allows of more open work and less packing in the scrum. Whether or not this movement will spread remains to be seen. In eastern Canada, a score of years ago, the clubs followed out the English Rugby code in the main. There were fifteen men on each side and the scrums were pretty much as they are in British Columbia. Changes were made, however, and with the introduction of the important parts of the American game, a happy medium was arrived at. The throw-in was abolished, the ball instead going over to the opposing side. This did away with kicking to touch and made ground-gaining runs the big factor. Of course the game is more compact in the east and there is less loose work; that is to say the ball is heeled out to the quarter-back of the side in possession. This style is the one in vogue on the prairies and everywhere in Canada except on the Atlantic and Pacific coasts.

## HOCKEY CLUB LOSES CLAIM FOR DAMAGES

Vancouver, Oct. 2.—Holding on the merits of the case that the Wanderers Hockey Club had endeavored to entice Ernie Johnson to break his contract with President Patrick, of the Pacific Coast Hockey Club, the court has today refused to collect damages for its own wrongful acts. Mr. Justice Murphy this morning dismissed the claim of the club against Johnson for \$2,000 damages.

Johnson said he had agreed to play for Lester Patrick for \$1,800 for the season, but Leichtenheim sent for him and persuaded him to accept his offer of \$2,000. After learning that he had made himself liable to an action for damages from Patrick, Johnson said he then decided to stay by the Patrick contract. The Montreal club then sued Johnson for \$2,000 damages, and got judgment by default.

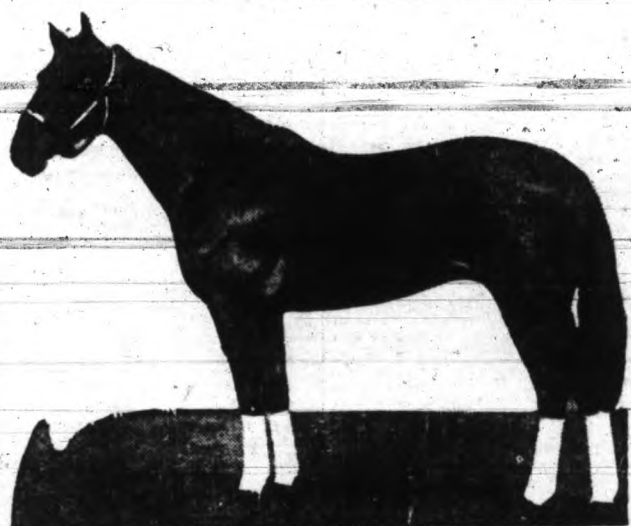

On the law as well as on the merits, Mr. Justice Murphy dismissed the action with costs, holding that as Johnson had not been served with papers in the Montreal action, the judgment was not enforceable in British Columbia.

## NEW ZEALAND RUGGERS ARRIVE

San Francisco, Oct. 2.—Twenty-four athletes, the pick of New Zealand's Rugby football players, arrived here today on the steamer Wilhelms for a two-months' tour of the Pacific coast, extending from Los Angeles to Victoria, B. C. Mayor Rolph, William J. French, personal representatives of Governor Johnson, and representatives of the San Francisco Olympic Club, Stanford University and the University of California, were at the pier to greet the New Zealanders. Little time will be given the New Zealanders to prepare for their American contests, as they are scheduled to play the Olympic club team here next Saturday afternoon. The last game will be played at Berkeley, November 15, against an all-American team.

It is said that in the recent Porky Flynn-Langford match the white boy should have won by the K. O. route in the first round.

## RACING AT THE WILLOWS

MARY EMILY

The speedy mare, the property of G. W. Goode and Co., which has finished first three times out of her last four starts. She was beaten yesterday by Swede Sam, failing to get placed in this race.

## GOOD LIST ARRANGED FOR SAANICH FAIR

A fine programme of sports, under a B. C. A. A. U. permit, has been arranged for the Saanich fair at Saanichton on Saturday afternoon. The local and children's races are to be run off first. Between the quarters of the Sidney-Lathers' lacrosse game, the following events are to be staged: 100 yards (open) at 3:15 p.m.; 220 yards (open) at 3:30; 5-mile motorcycle race at 3:45. The tug-of-war between North and South Saanich has been set for 2:45, and the various other events for 4 p.m.

The committee in charge is considering the advisability of putting on an additional 10-mile motorcycle race. If sufficient entries are forthcoming it is probable the event will be carded.

## OLD COUNTRY SCORES.

Belfast, Oct. 2.—The English League defeated the Irish League yesterday by a score of two goals to nil. London, 16; Southern Counties, 30.

## WALKING!

A philanthropic firm is the B. C. E. They're here to help the poor, you see! Help 'em spend their hard-earned cash by raising fares, but I think they're rash.

Chorus:  
For I'll keep on walking,  
Walking, walking, walking,  
And there's lots of fellows just like me  
Who won't be soaked by the B. C. E.  
We'll keep on walking.

There's a City Clerk whose feet are sore  
Walking in and out of the City Hall door.  
Three times fired and reinstated,  
A human shuttle-cock created!

Chorus:  
He keeps on walking,  
Walking, walking, walking,  
In and out of the City Hall,  
Back and forth, like a tennis ball,  
Someone stop him walking!

We have scores of workmen in this city,  
British workmen, more's the pity,  
Who can't get work, but they would, methinks,  
If their faces would only resemble a Chinik's!

Chorus:  
And they keep on walking,  
Walking, walking, walking,  
In vain all day they look for work;  
Jobs all held by Chinik, Balkan and Turk.  
So they keep on walking.

I'm game to go down on my marrow  
If the powers that be will bridge the  
Narrow:  
Then to our allies raise the shout,  
Get out of town! That way out!

Chorus:  
You keep on walking,  
Walking, walking, walking,  
Over the bridge and far away,  
In a white man's town you cannot stay;  
You keep on walking.

"Auntie" Colonist is a record-booster,  
She out-crows any noisy rooster,  
About the good things we're in get,  
But there's a mighty few we've seen as yet.

Chorus:  
Still, she keeps on talking,  
Talking, talking, talking,  
I fear when Mrs. Pankhurst calls,  
She'll wish she dwelt in marble halls,  
Far, far, from Auntie's talking.

Chorus:  
Oak Bay, B.C.

## READY FOR FAIR

Keen Competitions Looked for at Annual Event of North and South Saanich.

All is now ready for the annual exhibition of the North and South Saanich Agricultural Association, which opens at Saanichton to-morrow. The officials have the arrangements so well perfected that they feel that fine weather is all that is needed to make this year's event the largest and most successful from every standpoint in the history of the organization. From the interest displayed by entrants it is plain that there will be numerous very keen competitions in many of the classes and those in charge expect the quality in general to be an advance on that of last year, which was said to have set a new standard for the fair.

The following judges have been appointed: Livestock, W. Gibson; fruit and vegetables, M. S. Middleton; poultry, H. D. Reed. The opening day is to be devoted mainly to the placing of exhibits and the judging and Saturday has been designated for the sport programme and other interesting features.

For the best gallon of milk exhibited the B. C. Dairymen's Association has presented a prize, a condition being that winners must become members of the association before being eligible to receive the awards.

It is expected that the attendance of people from the contiguous districts will be added to greatly by the number who will go from Victoria.

## ANTIQUES ATTRACTED MANY.

Rare and Valuable Objects Were Found in Sale of N. P. Farrar's Collection

It is not often that a collection of antiques passes under the hammer in this section of the world like that disposed of by Stewart Williams & Co. at the residence of N. P. Farrar, Mount Newton road, Saanichton, on Tuesday and yesterday.

The Farrar collection was specially strong in old English furniture, Jacobean, Sheraton and Chippendale, and in pewter, brass, bronzes, china, etchings and water colors. There were people present at the sale from Victoria and mainland points in large numbers, including many social leaders.

The pewter, some of which came from the Horace Walpole collection, however, did not reach the hammer, having been purchased by Curtis Sampson. Among the pictures was a water color of poppies by Dante Gabriel Rossetti, presented by his great contemporary in the Pre-Raphaelite brotherhood, Sir E. Burne Jones, to Dean Farrar, father of the owner. This was sold to A. Jones.

Some of the water colors were by well known men and sold to advantage, while the brass fetched very good figures, the china luster also selling well.

Among the furniture items may be mentioned a fine inlaid Queen Anne tallboy of walnut, which was purchased by Mrs. Rattenbury. The grandfather's clocks sold well, as did the antique furniture. A Jacobean settle of oak sold for \$115, and the Shropshire and Welsh dressers also passed under the hammer at good figures, from \$125 up. Many of the curious old-world articles aroused much competition.

## FITTING WITH DOORS.

All Street Cars Will Be Equipped With Doors and Gates Within Next Few Months—Working in Car Barns.

At the local car barns of the British Columbia Electric Railway work is busily going forward on the making of doors for the street cars. It is the intention of the company to have every car in the city provided with doors or gates in the next few months. The system has been tried on several of the Port street lines and worked to advantage.

Gates will be put up on all single-ended cars, while doors will be constructed for the double-ended vehicles. At the present time eleven cars are fitted with gates and one with doors. It is the intention of the company, however, to have 19 double-ended cars fitted with doors before the end of the year. This, of course, will have to be done gradually, so as not to interfere with the service in the streets.

The doors are of wood and glass, of the panel type, and are opened by means of a handle. The idea is to give the motorman protection from the weather, which is not afforded on the double-ended cars at the present time, in addition to complying with the provincial statute on the subject. The single-ended cars, on which gates are to be erected, already provide protection for the motorman, and the new venture will make the practice universal.

## BUSY AT JORDAN RIVER.

Bear Creek Dam Emptied into New Structure; 74 Lengths of Pipe Laid.

The new Jordan River dam, owned by the Vancouver Island Power Company, is now being rapidly filled. The dam has a capacity of 10,000,000 potential kilowatt hours and of this amount 8,200,000 kilowatt hours are already stored.

To obtain this result the resources of Bear Creek dam have been drawn upon, so that the old dam is now empty while the new is nearing its capacity limit.

Progress with the laying of the pipe for the third unit at the Jordan River plant is excellent. Already 74 lengths have been set up out of a total of 320 which is equal to a total of 10,000 feet. The pipes will conduct the power down the waterways to the plant. Consignments of pipe are arriving regularly every other day.

About one-sixteenth of the paper output of the world is converted into books.

## AWFUL PRICE FOR CONQUEST OF THE AIR

Five Years Since First Aviator Was Killed; The Ghastly Procession Which Followed

New York, Sept. 30.—It was five years ago, at Fort Myer, Va., that the name of Lieut. Myers was written at the head of the now interminable list of those killed in aviation accidents. Five years—and the roll headed by the gallant army officer who was the first martyr to the new science of flying has grown into scores, and into hundreds, and doubtless will be numbered by thousands before the goal is reached and flying has become at least as safe as riding on the trains of the New Haven railway.

Nearly a year passed before aviation's martyrology gained new names. On Sept. 7, 1909, Eugene Lefebvre was killed at Juvigny, France, and on the same day Enes Rossi was killed in Rome, while testing a machine of his own invention. Later in the same month, Capt. L. F. Ferber, the distinguished French pioneer bird-man, was killed at Boulogne. In December A. Fernandez, a Spanish aviator, was added to the list, his death being caused by the explosion of his motor while in flight.

The year of 1910 witnessed a great increase in the number of aviators, and a consequent increase in accidents. Large sums were offered for exhibition flights at fairs and exhibitions, and the new profession "naturally" attracted a class of men who sought to surpass each other in feats of recklessness and daredevilry. Leon Delagrango, the French aviator who had made the first flight with a passenger, headed the 1910 list of victims. Le Blon, Michelin, Rolis, Chavez, Ralph Johnstone, and a score of others were killed during 1910.

The 1911 aviation fatality list numbered about seventy-five, and the total to the hundred mark. Three aviators were killed in one day, June 18, at Paris. On August 16th, Badger and Johnstone were killed in Chicago. Not only America and Europe, but China, Brazil, Peru, Cuba, Algeria and the Philippines had their victims to the world-wide craze for flying.

During 1912 the list of dead numbered over 120. On September 11 death had a field day; the list of dead, for that date including William Chambers, at Binghamton, N. Y.; Lieut. Selbert, at Dresden; Paul Peck, at Chicago, and Oaramnakli, at Patras, Greece. With 1912 the list has gained momentum, and aviation accidents have become of almost daily occurrence.

Very few aviators abandon the profession despite its obvious dangers, and it is altogether likely that most of the bird-men of to-day will "die with their boots on." Lincoln Beachey, long one of the most daring of the exhibition flyers, may be an exception to the rule, for he recently announced his intention of quitting the game. It was Beachey who invented the "dip of death," the "Dutch roll," and other hazardous feats, and no less than nine other aviators lost their lives in attempting to improve on these exploits.

With constant improvements in the mechanism of flying, and with a diminution of public interest in exhibition flights, it is likely that the death roll of aviation will decrease in the years to come. It was the big remuneration, made possible by a morbid public, that tempted the bird-men to flirt with death and perform clownish tricks. But the first martyr was of a different stamp. It was not love of lucre, but devotion to science, that sent him to his death.

## CHANCELLOR'S ESCAPE.

Mr. Lloyd George, in making facetious reference to his golf adventures (says the "Western Mail"), probably forgot the shock experienced by a well known Liverpool stockbroker who a year or two ago happened to be playing on the Criccieth links at the same time as the Chancellor of the Exchequer. In a long drive the Liverpool golfer watched his ball on its flight over a fence, when at the moment of its passing above the obstacle he saw a head appear on the other side. The ball passed within an inch of that head—the head, as it afterwards transpired, of the famous politician. Needless to say, the chancellor was unperturbed by the incident. His narrow escapes would fill a book.

## MADE IN CANADA

Anyone can make delightful home portraits, indoors or out, with a KODAK

And such pictures, taken in the intimate home surroundings, have a charm all their own.

CANADIAN KODAK CO., LTD. TORONTO, CAN.

## SIR O. LODGE ON SPELLING.

Sir Oliver Lodge, president of the British Association, who took part recently in a discussion on spelling reform, said: "Spelling always seems to me a matter of providence. I happen to have no difficulty about spelling. Bad spelling struck him like a had note in music. 'I have known scholarly people unable to spell,' said Sir Oliver, 'but I think in their cases they knew too many modern languages. Hence, for myself I would not worry children too much about spelling. Our ancestors never bothered about it. (Laughter.)' The real thing is spoken language, and the object of writing it to convey our meaning, to convey the particular word, and whether you spell it in our way or the way Mr. Andrew Carnegie spells it does not matter. Someone has said that M. Carnegie spells deplorably, the suggestion being that he was not educated, but Mr. Carnegie does it of set purpose." (Laughter.)

## STORIES OF 15TH CENTURY.

In "Historical Manuscripts: Report on Manuscripts in Various Collections, Vol. VIII," hardly as "encouraging" superscription—appears a lively budget of letters written by English ladies of the fifteenth century. Here is a picture of a duel for love of My Lady Diadala:

"Lord Pembroke, unable to bear Lord Mandeville's rivalry for the affection of Lady Emily Butler, challenged him to a duel behind Montague House. They were to have two esquires, I think more than any knight ever had before. When they met they might have had a bloody battle, but just at that instance the lady of their affections passed by and had them carried before Justice Beating. When they told the justice the occasion of their quarrel, she answered she could not make out what they meant, as they knew she had been a long while engaged to Lord Warkworth. They looked very silly, and 'tis affirmed, went to drown their sorrows at the Queen of Prussia's at Horsham."

## Smart Models for Fall

—The slip-on coat here shown is most popular this season, being useful on so many occasions, and always in good taste. Made with split sleeves or plain. Semi-lined to waist with either plain or shot silk.

No wardrobe complete without.

Prices Moderate.

## How Nature Cures

Doctors the world over admit that electricity is the power Nature uses in curing disease.

It has been proved that the human body is electrical, and that the stomach generates this power for the support of the body and itself. When you do your stomach with drugs you are not only hurting it, but you are working against Nature. Drugs destroy the digestive juices of the stomach, consequently you do not get the proper nutrition from your food. It's the action of these juices upon your food that produces the human electricity. So can't you see that as long as you fill your stomach with poisonous drugs it can't generate this force?

When your stomach, liver, and digestive organs get out of order, it is because they lack the necessary electricity to enable them to perform their regular functions. The breaking down of one of these organs nearly always causes other trouble. Nature can't cure them, because your body hasn't enough electricity to do the work, so you must assist Nature by restoring this electricity where it is needed.

Our Electro-Vigor does this while you sleep. It saturates the nerves with its glowing power, and those conduct the force to every organ and tissue of your body, restoring health and giving strength to every part that is weak.

Electro-Vigor is a relief from the old system of drugging. It does by natural means what you expect drugs to do by unnatural means. It removes the cause of disease and after the cause has been removed Nature will do the rest.

Electro-Vigor is not an electric belt. It is a dry cell body battery and makes its own power.

Dear Sirs:—I am getting along very nicely. I have received benefit from your appliance and am satisfied it is all right. I think I have followed your directions in using appliance. I feel quite encouraged. Chilliwick, B. C. (Signed), HERBERT BETTIS.

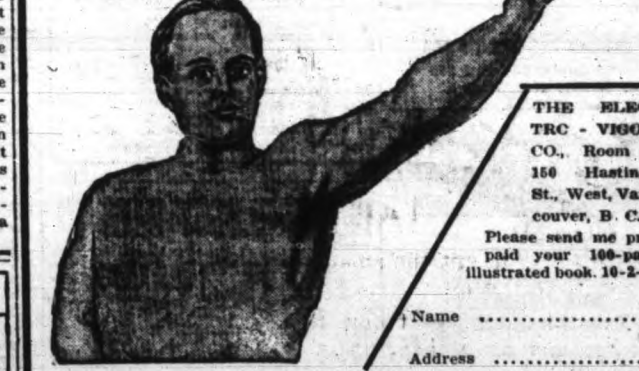

Dear Sirs:—Am giving Electro-Vigor a fair trial. After two weeks my pains left me. I have been wearing it four weeks and am perfectly satisfied that my Electro-Vigor has hunted them. I feel much better in every way. Wishing you every success. I am, Yours truly, Wardner, B. C. (Signed), W. BROWN.

## WE GIVE IT FREE

Get our 100-page book describing Electro-Vigor, with illustrations of fully developed man and woman, showing how it is applied. This book tells in plain language many things you want to know, and it gives a lot of good, wholesome advice for men. Also a 100-page book for women.

If you can't call, we will send this book, prepaid free, if you will enclose this coupon.

Electro-Vigor, 9 a.m. to 6 p.m. Wednesday and Saturday till 9 p.m. Sundays 10 to 1 p.m.

**THICK, GLOSSY HAIR****FREE FROM DANDRUFF**

Girls! Beautify Your Hair! Make it Soft, Fluffy and Luxuriant

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.  
A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.  
Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.

To the educated ad reader, QUALITY OF GOODS is of first importance—price concessions secondary

**WOMAN ESCAPES OPERATION**

By Timely Use of Lydia E. Pinkham's Vegetable Compound.

Here is her own statement.

Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. HAYWARD BOWERS, Cary, Maine.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

**SCRAP BOOK.**

Jews Celebrate Rosh Hoshannah, Beginning of New Year 5674.

Rosh Hoshannah, happy new year. Such is the greeting to-day throughout the Hebrew world, for this is the first day of the month Tishri, and marks the beginning of the year 5674. Rosh Hoshannah is a day of piety and prayer, of remembrance, and of joy and gladness. The holiday ends at sundown to-night, but the orthodox Jews will observe the "second day" to-morrow. Services in the synagogues open with the sounding of the shofar or ram's horn, hence the day is sometimes called the Memorial of the Trumpet. The purpose of the horn is to arouse the slumbering conscience of the sinner and to remind the pious that this is a day of self-examination. The shofar or ram's horn has been used to call the faithful to solemn assembly over since the beginning of the Jewish race. In reform congregations the ram's horn has been replaced by a trumpet or cornet, but the sounds of the ancient instrument are reproduced.

Prayers following the blowing of the horn. Among the orthodox, those who observe the "second day," the "seilhot" or penitential prayers are chanted. The adherents of the ancient faith hold that on Rosh Hoshannah the book of fate is opened, and the sinners are given an opportunity to "swear off" and to have a new and more favorable entry following their names. If they fail to repent of their evil ways within the penitential ten days following New Year, they fall under the sentence recorded in the Psalms, "Let them be blotted out of the book of the living and not be written with the righteous."

The good and pious Jew, too, reviews his life during the last year, considers his sins of omission and commission, and makes solemn resolutions to do better.

Many customs that were in vogue when the Jews were a nation in Palestine will be reproduced to-day in many cities. The Tashlik service, in which bread is cast upon the waters as a tribute to the Creator on the anniversary of creation, is one of those.

The holy penitential season of the Jews will continue for three weeks. The fast of Gaddalah will be observed next Sunday. The most solemn day in the Jewish calendar, Yom-Kippoor, or the Fast of Expiation, falls this year on October 11. The Feast of Tabernacles, of Succoth, the ancient harvest festival, will be celebrated on the 16th.

Thomas, the Hasmannah Rabbah on the 23rd. Sh'mini Atzeret on the 23rd, and Simchas-Torah on the 24th.

Mrs. Thomas Riley Marshall will celebrate to-day the eighteenth anniversary of her marriage to the eminent Houston lawyer, who is now vice-president of the United States. It is said that Mr. and Mrs. Marshall have not been separated for as long as twenty-four hours since October 4, 1895, when Lois L. Kimsey became Mrs. Marshall. The better half of the "most successful matrimonial firm in America" has set down several rules for keeping a husband happy and contented, among which are the following:

A woman should be the companion of her husband, as well as wife; she should not nag; she must not spend one cent more than the family income permits; she must not depend upon a paid housekeeper to supply the home atmosphere; she must avoid silly fads; she must keep the household machinery running smoothly, and she must remember that, while a man may not mention things that go wrong, he may be doing a lot of thinking.

HOW TO STOP FALLING HAIR; GROW NEW HAIR

You, Yourself, at Home, Can Mix the Best Remedy in the World for Most Hair and Scalp Troubles.

To stop falling hair, destroy dandruff, invigorate the scalp, make new hair grow (even on bald spots), kill all scalp germs, and make your hair soft, fluffy and lustrous, get from your druggist and mix the following ingredients:

8 ounces bay rum  
2 ounces lavender de composee  
3 dram menthol crystals  
1 dram perfume

If you prefer, your druggist will do the mixing for you. This widely known formula is the best thing you can possibly use. It does not leave the hair greasy or oily. It instantly relieves scalp itching, cleanses and cools the scalp, has a very mild, pleasant odor, and is delightful to use. It beautifies the hair wonderfully. It is not a dye and cannot stain or injure the hair or scalp. The above formula was originated some eight or nine years ago by one of the most successful hair and scalp specialists in New York City. Finally scalp specialists in one of the newspapers. After that it was published in leading newspapers everywhere in America and abroad. It is estimated that three to four million people have used it. Very likely some of your own friends are familiar with this formula.

FIRST THINGS

The first English law designed for the suppression of vagrancy and the punishment of vagabonds was put into effect on this date in the year 1530. Before that time the English "hobo" was left to the tender mercies of the local authorities, and there was no general law dealing with the crime of being without a home or visible means of support. Poverty drove thousands to the streets and highways in the early part of the sixteenth century. Under the law the vagrant was to be whipped, and then forced to take an oath to return to the place where he was born, or had last dwelt for three years. This statute did little good, and in 1555 it was supplemented with an act providing that a vagrant who refused to take the oath should be put to death. In 1547 another law was passed whereby a vagabond was to be branded with the letter "V" and be a slave for two years. If he escaped

## KING'S DAUGHTERS HEAR OF PROGRESS

Reports at Annual Meeting  
Tell of Work Accomplished  
and Needs of Body

The King's Daughters' rest room was crowded to its full seating capacity yesterday afternoon for the annual meeting and "At Home," held for the purpose of letting the public hear the reports of the progress and position of the work. Mr. L. H. Hardie presided, and the treasurer's report was read early during the proceedings and showed that, while a balance of about \$70 was still in hand in cash, there were debts to the amount of about \$170 still owing. The expenditure during the year, including furnishings, light, fuel, rent, groceries, etc., had been about \$902, and the receipts had been \$1,002.30.

Mrs. Gordon read the story of the rest room, showing how the work had been established, its growth, and its present position.

The very first germ of the rest room for girls, the story explained, was the sight of several young girls eating lunch in a corner of the old Quadra street burling grounds. These, on being interrogated in a friendly way, said that there were no proper places in which to rest or eat lunch in the places of business where they were employed, and that on cold, rainy, or winter days, they "just got along somehow." Talks with several sympathetic women showed that the will to remedy conditions like these was not lacking, and one of these large-hearted women, herself a King's Daughter, induced the King's Daughters to undertake this work, being further incited thereto by the example of the Toronto branch.

Yet it was rather doubtfully that the work began. The funds of the society were inadequate, large initial expenses would be incurred, and it was feared that the girls might not respond to the efforts on their behalf. A room was rented from the Christian Brothers, an electric plate installed, and the tables, crockery, and table linen of the organization utilized. By the kindness of friends supplies were either purchased or donated, and the work actually began.

The first day three girls came; by the end of the week the number had increased to a dozen. Tickets were sold, a dozen for 25 cents, for it was specially desired that this undertaking should not be an undertaking of charity, but an undertaking to aid those who were honorably supporting themselves. In the hands of practical housekeepers this sum has been found adequate not only to pay for the supplies actually used, tea, sugar, cocoa and milk, but also for gas and laundry.

The rent was paid entirely by the King's Daughters in these early days, and all work was done by a faithful few, who deserve honorable mention for the cheerfulness with which they set tables, served tea and cocoa, washed dishes and dish towels, built fires, cleaned the rooms they occupied, and toiled up and down the steep stairs with heavy loads.

The number of girls attending increased daily, and an attempt was made to induce the employers of labor to co-operate with the King's Daughters in support of the work. But without success. The employers were glad of such a rest room, the speaker said, and regretted that they had not room to give their employees a rest and lunch room on their own premises. But their good-will did not extend to cash, she added, although one notable exception, viz., a friend who gave \$20 from his private funds to furnish the rest room with blinds and curtains, was mentioned.

The work grew. A new room was

rented, which had a kitchen attached, gas range, large coal bin, sink, etc., being fitted. The increased rent was met by the letting to tenants of the hall in the evenings and in the afternoon when the girls had returned to their work. A strong woman had to be employed to keep the rooms clean, as the work had now grown to the point where upwards of seventy women and girls made use of the room daily.

The King's Daughters, the report continued, regretted that they were unable to do more for the army of toilers. The thought of the many girls in boarding-houses, who had literally nowhere to which they could ask a friend, who could only walk the streets, frequent moving-picture shows or parks to enjoy the society of friends or even the men whom they were engaged to marry, and who had no means of healthful recreating, was enough to make all thoughtful women anxious, for there were distinct elements of danger about such an unnatural condition of affairs.

Victoria was no longer a town, but a growing city. The King's Daughters were providing a room where girls were served with hot tea or cocoa, as they preferred, as an accompaniment to the lunches they brought with them. There were a few comfortable chairs, a couch, a piano. But the King's Daughters would like to do more if the funds were only forthcoming. In the treasurer's statement cash donations only had been mentioned, but supplies had been sent in by many kindly friends, which were acknowledged in the daily papers. The kindly president of the Ministering Circle, Mrs. R. R. McKicking, was instrumental in securing many donations of cash and supplies, particularly in the first difficult days when the work was begun.

The gift of \$37 from the organizers of the baby show was gratefully acknowledged.

The Ven. Archdeacon Scriven, having been requested to speak, said that he was glad of the opportunity of being able to show men as well as women were interested in the work which the King's Daughters were carrying on. He believed it was one of the bad signs of the times that girls had to go out to business at all, and showed that men had forgotten their duties. It should not be possible for any woman to have to go out to earn her living, but he had unbounded sympathy and admiration for girls who went out to help the family funds. On the other hand, women who went out to take up business positions, when it was not necessary should not pride themselves on doing so. However, as they were as they were, the next step was to make things as smooth and easy for them as possible, and this was the task of the older generation.

The King's Daughters had done a noble work in caring for and helping these girls who were in business, and he was delighted to hear from the reports read of how well the work was succeeding, and hoped that it would be even more successful in the future than in the past.

That the age of chivalry had passed was also expressed by Dr. Clay, but having gone they must accept the conditions and make the best of them. Consequently he congratulated the King's Daughters for the work they had accomplished during the year for their sisters who had to go out and earn their living in the city. They had recognized that their mission was to serve, and had accurately followed this motto, by contributing to the life and peace of the city. He trusted that the first year's success, as indicated in their reports, was only a forerunner of the still greater work to be achieved in the years to come.

Mrs. J. D. Gordon pointed out that the girls who were being helped by the King's Daughters were in nearly every case girls who actually had to work not only for their own support, but often toward the support of others. She thought it might be very good for the men to have to look after their daughters and sisters and wives, as suggested by the archdeacon, but it might not be particularly good for the women, in the long run, to be pampered.

ed in the manner suggested. People were put into the world to work, and if they did not have to do it for themselves they ought at least to do it for others.

A most enjoyable programme of music was given during the afternoon, those who took part being: Mrs. Longfield, who sang "Once," and Mrs. Codd, who sang "My Realm of Love." A violinist who has just come to the city, Mr. Trethewey, made a very favorable impression with his playing, among the several beautiful numbers rendered being Wieniewski's "Legende" and Fritz Kreisler's "Schoen Hornmarin." Mrs. Gibson made a sympathetic accompanist.

Refreshments were served, and the proceedings concluded with a social hour.

OLD PIONEER HERE.  
E. Meeker Blazed Old Oregon Trail  
From Omaha to the Columbia River;  
Visited Victoria 35 Years Ago.

A noted pioneer of the Northwest, Ezra Meeker, who blazed the old Oregon trail from the site of the present city of Omaha to the Columbia river sixty years ago, was in the capital for a few hours yesterday returning to his home in Tacoma on the afternoon boat.

During the past few years Mr. Meeker has been engaged in going back over the trail which he covered in his ox wagon in the early days and marking each camping point with a suitable monument. He is also interested in a movement to erect a memorial arch in some prominent place in his own city of Tacoma in honor of the early pioneers of Washington and Oregon.

Mr. Meeker has written several books on the hardships endured by the early pioneers, to the unsettled regions of the Pacific coast. His first visit to Victoria was made thirty-five years ago.

**OUR LETTER BOX**

Letters for publication in Daily Times must be received at the office not later than the day before the day of publication. When received later they will be held over until the following day. While unobjectionable anonymous communications will be published, the name and address of every writer of such letters must be given to the editor.

THE ORANGE SENTINEL.

To the Editor:—In the editorial columns of Wednesday's issue you refer to the Orange Sentinel as a Conservative paper. Now, sir, I beg to state that this inference is untrue. The Sentinel is the official organ of the Orange order. Now, sir, the Orange order is not now or ever have been either a Conservative or Liberal order. It is only political in so far as the members are Protestant first and any party after. It may be interesting news to you that Sir Wilfrid Laurier is a regular subscriber to the Sentinel. CHAS. W. CHAPPELL.  
1032 Yates street, City.

WILL DEFEND HIS PUSSEY.

To the Editor:—A man in Victoria, inspired by the other daily paper, tells an apparently incredible story of depredations committed by our universally beloved, but too often neglected, "pussey," who is the only perfect "home companion" amongst animals for our children.

I make use advisedly of the word "neglected," as these tenderly reared little creatures are so frequently deserted in a heartless way when there is a change of residence. They cling to their once pleasant home, but are periodically kicked out by the newcomers, and meet with short shrift from the neighbors when they whine and plead for a crumb or two.

The man I refer to wishes us to believe that he has seen "five cats eating five of his chickens!" And that he has found recently "one dozen birds killed on his premises by cats," although cats are in the habit of carrying away birds they kill, and leave nothing but the wings. He also states that "two of his neighbors have lost 100 chickens each this season by cats." Now, any one that likes can swallow that information, but I can't.

If the domestic cat is to be "caged or killed on sight and a bounty paid for their pelts, by-law," how are we to prevent rats and mice (often gophers) from invading our houses; rats, especially, that are attracted by the leading medical authorities to be the greatest of disease importers?

This correspondent who writes under the Colonialist's caption, "Restrict or kill the cat," and his neighbors who keep large hen-runs within the city limits, should not allow them out to wander at their own sweet will over surrounding gardens in opposition to the "domestic cat." It is undoubtedly a libel upon my beautiful Angola and every other cat to say they are the worst disease-carriers known. Cats are well known to possess singular electrical properties that make them the best playmates for children, and also that they are a perpetual source of amusement for them and every adult in the family. The sailors on our big battle-ships are warm-hearted friends of cats. "Take care of my cat," were the last words of Doctor Stark, who was killed by the bursting of a shell at Ladysmith. A great cardinal had his sleeve cut away sooner than disturb his cat that was asleep upon it. I give timely warning now in the Times that I, and I am sure many others who agree with the sailors, the soldiers and the cardinal, will obstruct the suggested by-law in every possible way, and "give it hot" to any provokers about our premises who attempt to trade upon the pelts of our pussies, on which we place a sentimental value far above chickens.

My cat has never killed, or attempted to kill, a chicken, nor can I recall to mind one that ever did.

GROUCHER.  
The way to avoid evil is not by maintaining our passions, but by compelling them to yield their vigor to their moral nature. H. W. Beecher.

## TO-DAY IN CANADIAN HISTORY

It is one hundred and fifty-five years this day since the first parliament (within the limits of the present Dominion of Canada) was called together in Nova Scotia by Colonel Charles Lawrence, the governor of that province. The assembly consisted of 22 members, and met in the governor's "own house" at Halifax. This step, it may be added, was much against his will, though it had been under discussion for several years. In fact, Chief Justice Belcher had thrown doubts on the legality of laws made by the governor. The governor, however, on the recommendation of the former had directed him to call an assembly. This opinion received in Britain the support of that high legal authority, who afterwards became Lord Mansfield. Moreover, the English-speaking people, recently settled in Nova Scotia, were eager for a voice in the government. Accordingly, in 1758 the Lords of Trade and Plantations directed Lawrence to consult with Belcher concerning the manner in which an assembly could be "most properly convened." Regardless of this the colonel and his council continued to put off the evil day of surrendering any of their power until, early in 1758, there came the peremptory order that an assembly must be convened forthwith; and Lawrence dared no longer disobey.

The spirit of Canadian imperialism found enthusiastic expression at a great meeting of militia officers held in Toronto on this date, October 2, 1899. The sentiment of the gathering was all in favor of Canadian participation in the South African war. It was resolved, with fervid unanimity, "That the members of the Canadian Military Institute, feeling that it is a clear and definite duty for all British possessions to show their willingness to contribute to the common defence in case of need, express the hope that, in view of the impending hostilities in South Africa, the government of Canada will promptly offer a contingent of Canadian militia to assist in supporting the interests of our Empire in that country." Ten days later it was announced that a Canadian contingent had been accepted by the Imperial government, and at the close of the month the first force of a thousand men sailed down the St. Lawrence from Quebec, to the accompaniment of a great outburst of popular patriotic enthusiasm.

October 2 is the birthday of Sir James Pliny Whitney, for eight years the prime minister of Ontario, at Williamsburg, Ont., 1843. On this date in 1895 the vast unorganized regions and islands of Canada were formed into the districts of Mackenzie, Ungava and Franklin, and were originally placed under the control of the territorial government at Regina.

## THE HUMAN PROCESSION

Hon. Sir James Pliny Whitney, Kt., K.C.M.G., LL.D., D.C.L., K.C., M.P.P., Prime Minister of Ontario, was born in Williamsburg, Ont., seventy years ago to-day. The distinguished Premier of Canada's most populous province is affectionately known to his admirers as the "Old Man," but he does not appreciate the implication of age. To the opposition he is "The Autocrat," "The Czar," "the Joe Cannon of Canada," and many other things; that an opposition can always be depended upon to think of.

Sir James—He acquired the "Sir" five years ago—began his career as a barrister in 1876. Ten years later he asked the voters of Dundas to send him to the legislature, but Dundas was not willing. Two years later, in a by-election, he carried the riding, and he has represented Dundas county in the legislature ever since, a matter of a quarter of a century. He was the leader of the opposition from 1897 to 1906, and in the latter year, upon the downfall of the Ross government, he was chosen Premier.

In addition to his other titles and degrees, Sir James is a lieutenant-colonel in the reserve militia. In his youth he was a non-commissioned officer during the Fenian raids. As a political leader he considers it his mission to lead, and whenever there is any job of prime ministering to be done the Prime Minister does it. Wherefore his friends call him a born leader of men, and his political enemies a despot, overriding the liberties of the people.

Viscount Alexander George Francis Montagu Mandeville, who will inherit the title and debts of his father, the Duke of Manchester, and the fortune of his mother, who was Helena Zimermann, of Cincinnati, will pass his eleventh milestone to-day. The youthful heir to a famous dukedom is a sturdy, good-natured lad, with a face like a full moon. He is being brought up at Kylesmore Castle, in Connemara, Ireland, which is one of several castles and estates owned by his father. The Duke is one of the champion spenders of Europe, and only last month he was saved from bankruptcy only by the aid of his wealthy American father-in-law, Eugene Zimmermann, who settled the Duke's most pressing debts. Since his marriage the Duke has had several narrow escapes from the toils of the money-lenders. The title of Viscount Mandeville, borne by the Duke's son, was created in 1629.

### NO INSTRUCTIONS YET

City's Prosecution of Country Club for Operating Pari-Mutuels is Postponed.

That the city's efforts to prosecute the Country Club for the alleged illegal operation of gambling devices at the race meet at the Willows will not materialize in an indictment, being presented to the grand jury at the present session is evident from the announcement of Deputy Attorney-General McLeod that he is unable to get in touch with the Hon. W. J. Bowser, who is the only person with the authority to direct such proceedings. Mr. Bowser has gone shooting and has left no means of communication with him and has failed to appoint an acting attorney-general in his absence.

Consequently nothing can be done until his return, when the city's request will immediately be brought to his attention. By this time, however, the chief aim of the city council will have been defeated, namely, to limit the racing to seven days. The meet will have run through its 19 days before Mr. Bowser's vacation is at an end.

### TOO LATE TO CLASSIFY

FOR SALE—Launch hull, 26 ft. 6 in., 500 Apply foot of Bellevue street. 02

### CARD OF THANKS.

Mrs. Malcolm Ferguson and family desire to express their heartfelt thanks to all kind friends who gave comforting words of sympathy and sent floral offerings on the occasion of their recent bereavement caused by the death of their loving husband and father. 02

## NEW VICAR-GENERAL NAMED FOR VICTORIA

Rev. Father Leterme Receives Appointment From Bishop; Mgr. Nicolaye Leaves

The Rev. Father Joseph Leterme, of St. Andrew's cathedral, Blanchard street, was appointed to-day vicar-general of the Roman Catholic diocese of Victoria by His Lordship, Bishop MacDonald. Mgr. Nicolaye, V. G., who left for his home in Holland last fall, is not to return.

The Very Rev. Mgr. Leterme, V. G., is a native of the diocese of Bruges, Belgium, where he was born about fifty years ago. He was ordained to the priesthood at the American college, Louvain, Belgium, on September 12, 1888, and celebrated the silver jubilee of his ordination in September, 1911, at which time he was given a reception in the Knights of Columbus hall, Langley street, and was presented with a purse and a challenge.

Mgr. Leterme came to Victoria shortly after his ordination and has been stationed here since, except for about two years which he spent as pastor at St. Louis College, Pandora avenue, and was also its principal.

He is one of the best known of the clergy of the city and his many friends will be pleased that he has received this new honor. The position of vicar-general carries with it the title of Monsignor.

The many friends of Mgr. Nicolaye, irrespective of creed, will learn with profound regret that he is not to return to the diocese of Victoria. He has accepted a rectorship of a Kneph cure established and sanatorium in the city of Heerlin, Holland, near his native home. As a mark of the esteem in which he is held by the Bishop of Victoria, Mgr. Nicolaye retains the office and title of vicar-general.

The following is the translation of a testimonial in Latin sent to him lately by the bishop:

We hereby gladly testify that the Very Rev. Joseph Nicolaye, vicar-general of this diocese, served the cause of the church militant for seven and thirty years in the island of Vancouver, and during all that time bore himself unweariedly as a true soldier of Christ. Both clergy and people, as well as those without the fold, deeply regret the loss of so good a man and so devoted a worker.

Dated at St. Andrew's the twenty-sixth day of September, 1913. ALEXANDER MACDONALD, Bishop of Victoria.

### MEETINGS

Pemberton Memorial Chapel.—The Pemberton Memorial chapel service next Sunday morning at 10.30 at the Jubilee hospital will consist of morning prayer, hymns, and short address.

To Study Emerson.—Dr. T. W. Butler will give a talk on Emerson at the Progressive Thought temple, corner of Pandora avenue and Blanchard street, on Friday evening. After the talk a class for the study of Emerson will be organized. All who are interested are expected to attend.

Manx Society.—The Victoria Manx Society will meet at the Carlton Cafe this evening at 8.30.

Rehearsal of Gondoliers.—The Victoria Operatic Society will meet this evening, at the Arton hall, for the second rehearsal of "The Gondoliers," the bright Gilbert-Sullivan opera which is to be given in the course of the next few weeks at the Victoria theatre. All attending members are notified that they must attend this evening's rehearsal if they wish to take part in the performance.

Sunday School Convention.—Next Wednesday and Thursday afternoons and evenings, in the First Congregational Church, the Victoria District Sunday School Association will meet in convention. A splendid practical programme has been prepared. Rev. J. W. Williams, British Columbia Sunday school secretary, will be present and give two addresses. Among other speakers will be Rev. Dr. Scott, Rev. J. G. Inkster, W. J. Shortt, Ald. A. B. McNeill, H. G. Penman, and F. Davey. A mass meeting of Sunday school scholars will be held on Wednesday afternoon at 4 o'clock. Everyone interested in this work is expected to attend all sessions of the convention.

Mrs. T. J. Hardy, 40 Government street, will receive on Friday, October 3, and every first Friday thereafter.

The many friends of Mrs. Pemberton, who was to have left next Saturday for a protracted visit in England, will be glad to hear of a somewhat sudden illness which will make her unable to travel for some weeks. She is, however, recovering rapidly, and it is hoped by her numerous acquaintances that she will be quite well enough to move about as usual.

### OBITUARY RECORD

The remains of the late William Overton, who died on Monday at St. Joseph's hospital, were forwarded yesterday to Seattle on the afternoon boat, where they will be cremated.

To enable New Yorkers to find fire alarm boxes at night, the superintendent of the fire alarm department is painting them with luminous paint. It is of white zinc, and in some parts of the city, where there is a little light, one of these boxes can be distinguished for a long distance. The value of the paint is obvious, and the fire commissioner ordered that the boxes all over the city should be dressed with this luminant.

## POLL IS PROCEEDING ON SOOKE BY-LAW

Mayor Confident of Endorsement; Result Will Be Known About 8 p. m.

Voting is taking place to-day upon the Sooke Lake supplementary by-law to raise the sum of \$1,500,000 for the purpose of continuing the construction of the waterworks system begun in April last year.

The voting was very slow in the early hours, but it was expected that as the day wore on the number of citizens who would register their opinion would be large. Probably no by-law since the question of the acquisition of the Esquimalt waterworks undertaking in 1910 has aroused so much controversy or occasioned so wide divergence of opinion.

Polling took place in the police court room under returning officer W. W. Northcott, there being 673 names on the list as compared with 5,731 in 1912. Mayor Morley said this morning that he was absolutely confident of the passage of the by-law and he was glad to see a large support forthcoming from the business men of the city. He regretted the number of matters had been debated during the last few weeks which would probably be detrimental to a complete understanding of the situation, but that the taxpayers would not turn back after setting out on a great and ambitious project of this character he was absolutely assured.

The result will be known about 8 o'clock this evening, as it is estimated it will take probably an hour after the poll is closed to count the ballots.

At 2.30 o'clock some 750 persons had exercised the ballot. Returning Officer Northcott said he had hoped for 3,000 to turn out on a bright day like the present, but he doubted if that number would be reached.

Automobiles are busy bringing out the citizens, and some of the aldermen are working very hard for the by-law, including Alderman Porter, who has his car engaged.

Alderman Hinton, whose presence was welcome after his long illness, was brought to the poll in a car and duly greeted by his colleagues. Alderman McNeill is also one of the most energetic workers for the passage of the by-law.

## HOW TORONTO STREET RAILWAY HELPS RATES

Increase in Business Has Resulted in Large Returns to the Citizens

Owing to the considerable interest taken in the fares question in so far as it affects the franchise of the British Columbia Electric railway, J. E. Painter, member of the well-known firm of J. E. Painter & Sons, supplies some interesting matter with regard to fares in Toronto, which he declares is the most progressive city in Canada.

He says: "The fares chargeable by the company are:

"Cash fares, five cents each, good between midnight and 5.30 a.m.

"Night fares, cash, 10 cents each for use between midnight and 5.30 a.m.

"Tickets, sold by conductors on cars, 25 for \$1, 6 for 25 cents, good at all times between 5.30 a.m. and midnight; 5 for 25 cents, good between 5 a.m. and between 5 and 6.30 p.m.; 7 for 25 cents, good on Sundays; 10 for 25 cents, good for school children between 8 a.m. and 5 p.m., except on Saturdays and Sundays. Children under 9 years of age are carried at half fare. Infants in arms free.

"Transfer tickets are issued free of charge to enable passengers to reach any point in the city for one fare.

"The agreement existing between the city and the company expires on September 1, 1921.

"Since the company obtained the franchise in 1891, two years after the time here, the revenue received by the city from the Toronto Street Railway Company has amounted to \$1,545,708, on the mileage, and \$5,633,770 on the percentage. In 1892, the first completed year, the city receipts from the railway were \$120,373; last year they were \$889,911.

"In addition to the foregoing the company is taxed on its lands, plant and buildings, and in respect of its business in the same manner as if it was an ordinary business enterprise. Taxes for 1913 will be levied on an assessment of \$3,075,636, and will amount to \$59,792, exclusive of any local improvement rates for which the company is liable.

"There were 135,766,573 passengers carried in 1912, and 54,176,985 transfers issued. The net profit of the company for 1912, after paying the city's share, was \$1,443,453.52. The mileage payable to the city annually is at the rate of \$800 per single track line, exclusive of turn-outs.

"The portion of the gross receipts of the company payable to the city annually under the street railway agreement is as follows: Up to \$1,000,000, 10 per cent.; \$1,000,000 to \$1,500,000, 10 per cent.; next half million, 12 per cent.; from two to three million, 15 per cent.; and about \$3,000,000, 20 per cent."

A person dies of starvation when he or she has lost two-fifths of the natural weight. In cases of starvation, heart action, respiration, and blood pressure remain practically unaltered, but the body temperature falls about a degree.

When sugar first was made from beets it took about twenty tons of beets to produce one ton of sugar; now it requires but six tons, the change being due to scientific breeding of the beets.

## DR. SCOTT UPHOLDS SUFFRAGE ARGUMENT

Speaks at Meeting of Political Equality League; His Reasons

The third public meeting of the Political Equality League, which took place on Tuesday evening, was splendidly attended, and most enthusiastic. Mrs. Gordon Grant presided as chairman.

Rev. Dr. Scott, who gave the principal address of the evening, said that he had once been privileged to overhear the premiers of two Canadian provinces discussing the question at luncheon, when one of them disposed of it with the baseless assertion that "the best women do not want votes for women." That, said Dr. Scott, was a reason for withholding the vote which no one had any right to advance. It was an assertion which no one had any right to make until the best women had been given an opportunity to say what they thought on the subject.

"For who," added the speaker, "can tell what a woman wants till she has been asked?"

Dealing with the time-honored protest that women's sphere was the home, Dr. Scott pointed out that whereas in former ages womanhood had found a sphere within the confines of individual homes, modern conditions had drawn all so-called womanly occupations out into the world. Nursing and teaching, which formerly were part of the routine of home life and were then necessarily limited in extent and personal in application, were now carried on in hospitals or in schools, and women had to leave the home. Womanhood was coming out to lead manhood back to the support of realities of life, health, morality, justice—all more important than mere fiscal questions. The movement was the awakening of the sense of race motherhood and its revolt against the pressing danger of race extinction.

Mr. McEwan also spoke, pointing out that although woman suffrage had some honest opponents, yet these found themselves in company with representatives of the various vicious interests. Miss Dorothy Davis called attention to the Public Schools Amendment Act of last session, in which the word "male" had been inserted for the first time among the qualifications required in those eligible to vote. This, she declared, expressly deprived women in such localities of the only practical power they possessed in connection with the education of their children.

A delightful programme of recitations and music was contributed during the evening by Mrs. Gleason, Mrs. Percie, and Miss Eva Neal. Miss McC

### FINANCIAL STATE PLEASES PRESIDENT

D. R. Wilkie, Head of Imperial Bank, Speaks of Outlook in Canada

"While we are a borrowing country we must expect to be pretty well under the control of conditions abroad," said Col. D. R. Wilkie, president of the Imperial Bank of Canada and president also of the Canadian Bankers' Association, to the Times this morning.

"In this respect," he continued, "Canada is no worse off than many other nations. In fact so strong is the Imperial sentiment that Canada is highly favored thereby. Other countries see that our credit is good in the Old Country and that gives them the right confidence to come in and invest. If it were not so Canada might be in a bad way, for when a man's father and mother won't trust him, it is not likely that the neighbors will."

"But still the fact that we are at present a borrowing nation makes us feel very acutely the effect of any little imbroglio as well as any war either in Europe or in the Near East. "Apart, however," he continued, "from every other consideration, the outlook in Canada from a financial standpoint is exceedingly bright. The significant crop which has been garnered in the prairies has a good deal to do with this."

"The crop, taken altogether, is the best Canada has had for years. It was harvested in good condition and under favorable weather conditions. Labor, too, was more than plentiful. In fact, owing to the crowded labor markets, not only was there material from the east and abroad to draw from, but I understand that many laborers were induced to come from the Pacific coast to participate in the harvest."

"What," Col. Wilkie was asked, "is the effect of the harvest on banking conditions in the country?" "It gives more business to do," he replied, "and more money to do it with. Thanks to Canada's splendid banking system and the wide currency of bank notes, our methods do not entail a stringency on the moving of the crop—as often happens in the United States. In fact the process over the line nearly caused a panic."

According to Colonel Wilkie, the conditions under which the Ontario farmer lives and moves and has his being, are Utopian in their ideality. He pictures them as smiling contented people who have no cares nor worries in the world, who grow old with a perpetual smile and never lose their tempers or beat their wives. To use his own expression, they "are the most contented class in the world." One picture the Indians in their happy hunting ground and the Per at the Gate turning slowly green with envy at the blissful condition of the typical Ontario farmer.

"But Why?" "I will tell you," said Colonel Wilkie. "All legislation is in his favor. He has free education for his children; he has a protective market; in proportion to the number of workers the producers are mighty few. He is prospering like a green bay tree. He is getting rich." No good story is without a moral, and Colonel Wilkie's moral is that British Columbia farmers could achieve the same blissful state if they would but set to work to attain that end.

"I see," he said, "that you imported forty millions of produce. There, why

### HOSPITAL AUXILIARY BREAKS VACATION

Canvass to Be Resumed This Year; Linen Shower on October 17

The report of the treasurer at the meeting yesterday afternoon of the Woman's Auxiliary of the Royal Jubilee Hospital, the first since the vacation, showed that the sum of \$1,912.75 had been collected, this giving an increase of \$212.75 over last year, and the correspondence included a letter of thanks from the local council of women for the generous contribution given toward the deficit on the tea and rest room opened at the Alexandra Club during carnival week.

Mrs. Otto Weller, convenor of the canvassing committee, read her report, held over, on account of her absence, from the annual meeting, which defined the plan adopted for dividing the city into districts for the canvassing campaign held last season. Fifty-four districts had been drawn up and canvassers deputed to each, the following ladies having kindly given their services:—Mrs. Rhodes, Mrs. Hasell, Mrs. Vincent, Mrs. Ferguson, Mrs. York, Mrs. Hartman, Mrs. A. P. Griffiths, Mrs. Manson, Mrs. Brumpton, Mrs. Wright, Mrs. H. H. Jones, Mrs. R. F. Green, Mrs. Drury, Mrs. Gordon, Mrs. Ballantine, Mrs. Christie, Mrs. Arthur Robertson, Miss Meyer, Mrs. McDiarmid, Mrs. Lucas, Miss Tolmie, Mrs. R. Jones, Mrs. Watson, Mrs. Weller, Mrs. Fletcher, Mrs. Jenkinson, Mrs. Baxter, Mrs. Love, Mrs. Home, Mrs. Barton, Mrs. Doull, Mrs. Bennett and Mrs. Capt. Clark.

A vote of thanks was passed to Mrs. Weller for her services and the report was adopted. A letter was read from Miss M. C. Macdonald, recently matron of the Royal Jubilee Hospital, who gratefully acknowledged the resolution of appreciation of her services read at the annual meeting of the Woman's Auxiliary. It was decided by the meeting to send a small keepsake to her, Madam Rhodes, Otto Weller and Hartman being deputed to take the necessary steps. A vote of thanks was passed to Mrs. Macleure, who designed the address presented to the matron.

All canvassers are to attend a special meeting of the canvassing committee to be held on Monday, October 6, at the Alexandra Club, at 2 o'clock, and volunteers for service will be welcomed.

The annual thanksgiving linen shower will take place on Friday, October 17, from 2 to 6 p.m., at the Nurses' Home, Jubilee Hospital, and a musical programme will also be provided.
